## 1. INTRODUCTION

The preparation of the Annual Budget is both a statutory requirement of the *Local Government Act 1995* and an essential financial management practice. The annual budget is guided by the 10-year Strategic Community Plan (SCP), which involves significant community consultation every four years when undertaking a major review. The revised City of South Perth SCP 2021-2031 was adopted by Council in December 2021. A minor review of the plan was adopted by Council in March 2024. The SCP guides the development of a Corporate Business Plan (CBP) that describes the services, projects and measures for the next four years working to achieve the strategic vision. The long-term financial plan, asset management plans and workforce plan inform the SCP, CBP and annual budget, with outcomes contained in the Annual Report. The annual budget has been prepared in accordance with the requirements of Part 3 of the Local Government (Financial Management) Regulations 1996.

### 1.1 OPERATING REVENUE AND EXPENDITURE

Overall, in terms of the Statement of Comprehensive Income, the Annual Budget 2024/25 includes Operating Revenue of \$73.66m, Operating Expenses of \$73.10m and Non-operating, grants, subsidies and contributions income of \$7.49m.

#### Rates

This year, in order to fund the services provided to the community, the City is recommending a Rate increase of 3.4%, which is in line with the Perth CPI for March. Last year Council adopted a rates revenue increase of 5% which was below the March CPI figure of 5.8%. This is the sixth consecutive year, where the City has kept rate rises at or below the Perth CPI figure without impacting significantly on the level of service being provided to its ratepayers.

Including this year, Council will have adopted budgets with rate rises totalling 13.9% over the past six years, well below the Perth March CPI of 21% for the same period. Council has worked with administration to limit expenditure growth and thus work towards achieving a net operating surplus, which is an important factor in developing a sustainable financial future for the City of South Perth. Whilst this has been achievable primarily through identifying operational efficiencies, there has also been some minor reduction in service levels.

#### Minimum Rates

Section 6.35 (4) of the Local Government Act 1995 provides for Local Governments to set a minimum rate. This minimum rate should reflect a reasonable contribution to the provision of services and facilities. No more than 50% of properties within the district are allowed to be on the minimum rate.

As per the City's long term financial management principles, the Minimum Rate (the lowest rate paid by any one ratepayer) is recommended to increase in line with the Perth March CPI by 3.4% to \$1,210 (\$1,170 in 2023/24). The Minimum rate applies to approximately 2,859 properties.

## **Waste Service Charge**

The second largest recurring revenue component is the waste service charge. The standard waste service charge for domestic rubbish for the Annual Budget 2024/25 will increase to \$395, \$545 for non-rateable properties, the third modest increase in six years. Whilst this charge still remains one of the lowest in the metropolitan area, the increases, below the CPI over the six-year period, is required to cover the additional costs that will be incurred due to the higher waste contract price including the significant increases in labour, fuel and recycling costs driven by inflationary pressures.

## **Employee Information**

Employee costs constitute approximately 39% of the City's annual expenditure. This is a cost that has been managed closely over the past few years with the number of full time equivalent (FTE) positions held reasonably stable.

Staffing in the budget reflects an appropriate mix of resources across the organisation to deliver services in accordance with the City's Strategic Community Plan.

The total payroll budget has mainly increased to make allowances for a 2.75% pay increase (below the March CPI figure of 3.4%) as per the City's Enterprise Agreement (EA), negotiated in 2022, and the legislated 0.5% increase in Superannuation Guarantee from 11% to 11.5%. Employee costs also include the allocation of workers compensation insurance approximating \$410,000.

## **Collier Park Retirement Village**

In October 2023, after an extensive evaluation of potential operators for Collier Park Retirement Village, Council endorsed the City progressing negotiations with Amana Living Incorporated. At its meeting held 28 May 2024, Council further endorsed the execution of a contract to transfer the ownership and operations of Collier Park Retirement Village to Amana Living Incorporated. This transaction is scheduled to take place prior to the 30 June 2024 and therefore a minor operating budget relating the finalisation arrangements and no capital budget for this facility is included in the 2024/25 budget. It should be noted that the impact on the overall operating budget is a saving of approximately \$500,000.

## **Collier Park Golf Course**

The City owns Collier Park Golf Course (CPGC), which is operated under management by Clublinks Management. CPGC is one of the best public golf courses in Australia and as such there is a high demand for tee times particularly at peak times. Approximately 80% of golf course patronage comes from outside of the City of South Perth. In the 2023/24 financial year, the City implemented a new flexible charging regime, whereby the operator will determine the charges between the range of \$10 and \$50 depending on the demand for tee times, this range will remain unchanged for the 2024/25 financial year. This initiative resulted in an increased yield per player and an

increased revenue return (in excess of \$200k) for the City. It is proposed that a similar charging regime be applied to the mini golf course for the 2024/25 financial year.

Pricing levels will continue to be transparent through the booking process so that customers know the exact price charged for different tee times and the operator will publish the seasonal pricing range on the Collier Park website as a guide.

During the 2023/24 financial year Clublinks was the successful tenderer for the right to operate the Collier Park Golf Course for 21 years. This involves a Course Controller Agreement, a Lease Agreement and a Development Agreement which will see them contribute up to \$8 million in capital to the redevelopment of the golf course facilities which are focussed on the buildings and driving range. The proposed development does not alter any of the nine hole playing courses.

These agreements are still being developed and will be subject to a Major Land Transaction Business Plan that will be advertised for public comment in the near future. The development requires a capital contribution from the City and will ensure the long term financial future of the golf course and provide a long term revenue stream for the City. This budget includes the provision to borrow the required funds from WA Treasury Corporation subject to the Business Plan being approved by Council at a later date.

The amounts included in the current budget relate primarily to the design works for the proposed buildings and the netting for the driving range which would enable the driving range revenue stream to continue whilst construction works take place. The works are all subject to the Business Plan being approved by Council

### **Underground Power (UGP)**

The City will levy the fourth instalment (out of five) for the Collier and Manning Underground Power service charge adopted in 2021/22 Budget on the rates notice for the 2024/25 financial year. For South Perth/Hurlingham, the City will levy the third instalment out of five for Underground Power service charge adopted in the 2022/23 Budget on the rates notice for the 2024/25 financial year.

The remaining underground power project, Kensington (East and West), is being progressed by Western Power and it is envisaged that it will form part of the Annual Budget 2025/26. Should Kensington proceed, the ambition to provide underground power to the whole of City, established by Council in 1996 will have been achieved.

Whilst UGP is a State Government asset, Council recognises the benefits to the community, being more than just securing supply during severe weather events. UGP has enabled an improved amenity through greater number and size of street trees, significantly reducing summer heat and positively contributing to the vision, “A City of active places and beautiful places.”

## **Budget Development**

The Operating Budgets are developed in response to the Council approved strategies, as described in the SCP. Management Budgets are considered by each of the City's business units, aligned to each business unit plan and the CBP. Budgets are then approved by City Executive to be presented for Councils' consideration.

In order for Council to fully understand the complexity of the City's finances, the City has undertaken a series of four budget workshops with Council, together with additional workshops specific to the golf course and the long term financial plan. Independent financial analysis and modelling of the City's forecast financial position was used to complement the work already done by the City's finance staff.

The financial management principles and strategies that were developed and applied in the previous years have been applied to this budget and the long term financial plan. If adhered to these financial management principles and strategies, will see the City's financial position continue to improve over time with its reliance on rate revenue reduced and its ability to fund asset renewals into the future greatly improve.

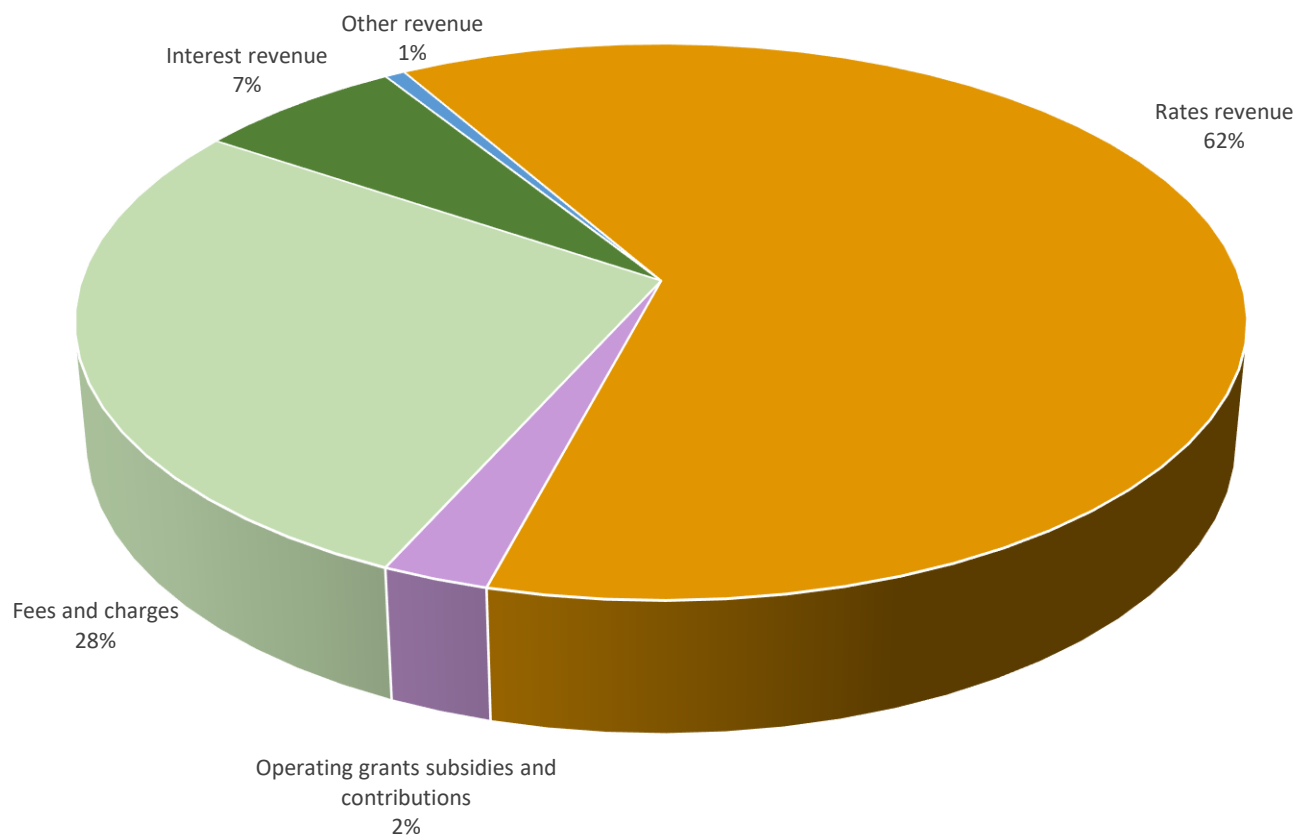

The work done with Council highlights that restoring the City's financial position is achievable, however it not only requires controls over expenditure (as has been the focus for a number of years) but also requires increases in income. Achieving this requires cooperation from staff, a commitment from Council and understanding by the community.

Council Concept Briefings (Budget Workshops) are conducted in order to prepare the Budget with input from Elected Members for adoption at the June Ordinary Council Meeting. Each Budget must be adopted by an Absolute Majority of Council.

The organisational structure is consistent with the monthly financial report groupings, forming the basis for the Management Budgets. This permits comparative analysis between years. The Statutory Budget includes the disclosures required by relevant legislation and regulations.

The graphs presented are to illustrate the components of the Budgeted Operating Revenue and Expenditure.

Operating Revenue

Operating Expenditure

## 1.2. CAPITAL EXPENDITURE

This year, the City has a planned capital budget of \$26.60 million that is well in excess of what is usually delivered. The majority of this expenditure (81%) is again focussed on renewal of existing assets. Infrastructure assets such roads, drainage, parks and reserves account for 65% whilst buildings account for 28%.

With the decision not to proceed with proposed recreation and aquatic facility (RAF) made last year, the City successfully advocated the federal government to retain the funds already received for this project (\$5.5 million). As agreed with the federal government, the funds will be utilised to improve facilities with the aim of increasing female participation in sports. These funds have been allocated to changeroom and sports lighting projects at Richardson Park, Challenger Reserve, Morris Mundy Reserve, Bill Grayden Reserve, George Burnett Reserve and Collier Reserve.

New projects included within the budget include funding of \$600,000 for the Manning Bike Track and \$210,000 for an enclosed dog park at Olives Reserve and a small dog only park adjacent to Comer Reserve.

After independent structural assessments, the bridges at Lake Douglas were closed during the year due to identified safety concerns. \$350,000 has been included for the replacement of the South Western bridge with further consideration to be given to the future of the North Eastern bridge in future budgets, noting that it will not be removed as it currently provides a shelter for turtles and resting place for the many bird species that visit the area.

\$950,000 has been allocated to improvements at the City's recycling centre, aimed at improving the ability of the City to increase recycling rates throughout the community whilst also improving safety at the facility.

A number of playgrounds, pathways, roads and public toilets are also set to undergo major renovations and renewals during the year. This includes the accessible changing places public toilet facility on the foreshore at Coode Street.

Capital Expenditure

## 2. BUDGET COMPONENTS

The 2024/25 Annual Budget has the following components adopted by Council, these being:

1. a. a General Rate in the Dollar of .075551 cents is applied to the Gross Rental Value (GRV) of all rateable property within the City for the year ending 30 June 2025;
- b. a Minimum Rate of \$1,210 be set for the year ending 30 June 2025 notwithstanding the General Rate set out in part (a) above;
- c. the following Waste Service Charges be applied for the year ending 30 June 2025:
  - i. a standard Waste Service Charge of \$395;
  - ii. a non-rateable property Waste Service Charge of \$545;
- d. the Swimming Pool Inspection Fee for the year ending 30 June 2025 of \$78.00;
- e. Dates be set for payment of rates by instalments:

**Two instalments**

First instalment	16 August 2024
Second instalment	6 November 2024

**Four instalments**

First instalment	16 August 2024
Second instalment	16 October 2024
Third instalment	16 December 2024
Fourth instalment	17 February 2025
- f. an Administration Charge of \$12.00 per instalment for payment of rates and charges by instalments be applied to the second, third and fourth instalment in accordance with Section 6.45(3) and (4) of the Local Government Act 1995 and Regulation 67 of the Local Government (Financial Management) Regulations 1996;
- g. an Interest Rate of 5.5% be imposed on payment by instalments, to apply to the second, third and fourth instalment in accordance with Section 6.45(3) of the Local Government Act 1995 and Regulation 68 of the Local Government (Financial Management) Regulations 1996;
- h. an Interest Rate of 11% be imposed on overdue rates in accordance with Section 6.51(1) of the Local Government Act 1995 and Regulation 70 of the Local Government (Financial Management) Regulations 1996;
- i. an Interest Rate of 11% be imposed on unpaid UGP Service Charges in accordance with Section 6.51(1) of the Local Government Act 1995 and Regulation 70 of the Local Government (Financial Management) Regulations 1996;

- j. an Interest Rate of 11% maybe imposed on outstanding debtors in accordance with Section 6.13(1) of the Local Government Act 1995.
- k. the Statutory Annual Budget for the year ending 30 June 2025 comprising Section 2 of the 2024/25 Annual Budget as distributed with this Agenda and tabled at this meeting, be adopted;
- m. the Management Budget Schedules for the financial year ending 30 June 2025 as set out in Section 3 of the Annual Budget be endorsed;
- n. the Capital Expenditure Budget for the financial year ending 30 June 2025 as set out in Section 2, Note 4 of the Annual Budget be adopted;
- o. the Reserve Fund transfers for the financial year ending 30 June 2025 as set out in Section 2, Note 7 of the Annual Budget be approved;
- p. the New Borrowing facility, being a short-term facility utilisation of which is subject to the approval of Collier Park Golf Course Business plan, for the financial year ending 30 June 2025 as set out in Section 2, Note 6(d) of the Annual Budget be approved;
- q. the Schedule of Fees and Charges as set out in the Fees and Charges Schedule for the year ending 30 June 2025 be adopted, including State Government Statutory Fees which are still to be determined at a later date than this Report;
- r. the effective date for all items detailed in the 2024/25 Schedule of Fees and Charges is 1 July 2024.
- s. Council adopt a definition of 'significant (material) variances' of \$10,000 or 10% (whichever is the greater) for each capital project and business unit operating revenue and expenditure line item.
- t. Levy instalment four out of five of the UGP service charges on the owners of properties within the Collier area bounded by Canning Highway, Ryrie Avenue, Blamey Place and South Terrace, as imposed by the 2021/22 Budget.
- u. Levy instalment four out of five of the UGP service charges on the owners of properties within the Manning area bounded by Manning Road, Kwinana Freeway, Hope Avenue and Challenger Avenue, as imposed by the 2021/22 Budget.
- v. Levy instalment three out of five, of the UGP service charges on the owners of properties within the South Perth/Hurlingham area bounded by Canning Highway, Douglas Avenue, Ellam Street and the Swan River Foreshore, as imposed by the 2022/23 Budget.
- w. That the schedule of fees and charges be amended to vary the fee charged by the City for the granting of s39 Certificates under the Liquor Control Act 1998 to \$0.00.

2. That Council adopts the increase to Elected Member fees and allowances of 4% as recommended by the Salaries and Allowances Tribunal “Local Government Chief Executive Officers and Elected Members Determination No1 of 2024” and authorises the Chief Executive Officer to update Schedule 1 of Policy P667 Elected Members Entitlements accordingly.

### **3. BUDGET STRUCTURE**

In addition to the Statutory Budget format, the 2024/25 Budget has also been presented in the format of the Management Budget, similar to the monthly Management Accounts as submitted to Council. The Management Budgets allow an assessment of each Directorate’s revenue and expenditure and can be used to provide a consolidated view of the operations under Council’s control.

The Management Operating Budgets include: Operating Revenue and Expenditure; Payroll and associated costs; Depreciation; Interest and related costs. They exclude internal corporate cost allocations; Capital Revenues (non operating grants and contributions); Capital Expenditure; Loan Principal Repayments; Transfers to or from cash backed Reserves and the Net Current Asset Opening Position carried forward from the previous year.

The 2024/25 Budget has been developed in response to many, at times, competing issues, which have been considered by Council. The budget was adopted at the Ordinary Council Meeting on 25 June 2024.

## Comprehensive Income by Nature and Type – Key Terms

### BASIS OF PREPARATION

The budget has been prepared in accordance with Australian Accounting Standards (as they apply to local governments and not-for-profit entities) and interpretations of the *Australian Accounting Standards Board*, and the *Local Government Act 1995* and accompanying regulations.

The *Local Government Act 1995* and accompanying Regulations take precedence over Australian Accounting Standards where they are inconsistent.

The *Local Government (Financial Management) Regulations 1996* specify that vested land is a right-of-use asset to be measured at cost. All right-of-use assets (other than vested improvements) under zero cost concessionary leases are measured at zero cost rather than at fair value. The exception All ROU assets (other than vested improvements) under zero cost concessionary leases are measured at zero cost (i.e. not included in the balance sheet) rather than at fair value. The exception is vested improvements on concessionary land leases such as roads, buildings or other infrastructure which continue to be reported at fair value, as opposed to the vested land which is measured at zero cost. The measurement of vested improvements at fair value is a departure from *AASB 16* which would have required the City to measure any vested improvements at zero cost.

Accounting policies which have been adopted in the preparation of this budget have been consistently applied unless stated otherwise. Except for cash flow and rate setting information, the report has been prepared on the accrual basis and is based on historical costs, modified, where applicable, by the measurement at fair value of selected non-current assets, financial assets and liabilities.

Financial reporting disclosures in relation to assets and liabilities required by the Australian Accounting Standards have not been made unless considered important for the understanding of the budget or required by legislation.

### THE LOCAL GOVERNMENT REPORTING ENTITY

All funds through which the City controls resources to carry on its functions have been included in the financial statements forming Part of this budget.

In the process of reporting on the local government as a single unit, all transactions and balances between those Funds (for example, loans and transfers between Funds) have been eliminated.

All monies held in the Trust Fund are excluded from the financial statements.

A separate statement of those monies appears at Note 15 to the budget.

### 2023/24 ESTIMATE BALANCES

Balances shown in this budget as 2023/24 are estimates as forecast at the time of budget preparation and are subject to final adjustments.

### BUDGET COMPARATIVE FIGURES

Unless otherwise stated, the budget comparative figures shown in the budget relate to the original budget estimate for the relevant item of disclosure.

### COMPARATIVE FIGURES

Where required, comparative figures have been adjusted to conform with changes in presentation for the current financial year.

### INITIAL APPLICATION OF ACCOUNTING STANDARDS

During the budget year, the below revised Australian Accounting Standards and Interpretations are expected to be compiled, become mandatory and be applicable to its operations.

- AASB 2021-2 Amendments to Australian Accounting Standards - Disclosure of Accounting Policies or Definition of Accounting Estimates

It is not expected these standards will have an impact on the annual budget.

### NEW ACCOUNTING STANDARDS FOR APPLICATION IN FUTURE YEARS

The following new accounting standards will have application to local government in future years:

- AASB 2014-10 Amendments to Australian Accounting Standards - Sale or Contribution of Assets between an Investor and its Associate or Joint Venture
- AASB 2020-1 Amendments to Australian Accounting Standards - Classification of Liabilities as Current or Non-current
- AASB 2021-7c Amendments to Australian Accounting Standards - Effective Date of Amendments to AASB 10 and AASB 128
- AASB 2022-5 Amendments to Australian Accounting Standards - Lease Liability in a Sale and Leaseback
- AASB 2022-6 Amendments to Australian Accounting Standards - Non-current Liabilities with Covenants
- AASB 2022-10 Amendments to Australian Accounting Standards - Fair Value Measurement of Non-Financial Assets of Not-for-Profit Public Sector Entities
- AASB 2023-1 Amendments to Australian Accounting Standards - Supplier Finance Arrangements

It is not expected these standards will have an impact on the annual budget.

## JUDGEMENTS, ESTIMATES AND ASSUMPTIONS

The preparation of the annual budget in conformity with Australian Accounting Standards requires management to make judgements, estimates and assumptions that effect the application of policies and reported amounts of assets and liabilities, income and expenses.

The estimates and associated assumptions are based on historical experience and various other factors that are believed to be reasonable under the circumstances; the results of which form the basis of making the judgements about carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates.

The balances, transactions and disclosures impacted by accounting estimates are as follows:

- estimated fair value of certain financial assets
- estimation of fair values of land and buildings and investment property
- impairment of financial assets
- estimation uncertainties and judgements made in relation to lease accounting
- estimated useful life of assets

### Rounding off figures

All figures shown in this statement are rounded to the nearest dollar.

## KEY TERMS AND DEFINITIONS - NATURE OR TYPE REVENUES

### RATES

All rates levied under the Local Government Act 1995. Includes general, differential, specific area rates, minimum payment, interim rates, back rates, ex-gratia rates, less discounts offered. Exclude administration fees, interest on instalments, interest on arrears, service charges and sewerage rates.

### OPERATING GRANTS, SUBSIDIES AND CONTRIBUTIONS

All amounts received as grants, subsidies and contributions that are not capital grants.

### CAPITAL GRANTS, SUBSIDIES AND CONTRIBUTIONS

Amounts received specifically for the acquisition, construction of new or the upgrading of non-current assets paid to a local government, irrespective of whether these amounts are received as capital grants, subsidies, contributions or donations.

### REVENUE FROM CONTRACTS WITH CUSTOMERS

Revenue from contracts with customers is recognised when the local government satisfies its performance obligations under the contract.

### FEES AND CHARGES

Revenues (other than service charges) from the use of facilities and charges made for local government services, sewerage rates, rentals, hire charges, fee for service, photocopying charges, licences, sale of goods or information, fines, penalties and administration fees. Local governments may wish to disclose more detail such as rubbish collection fees, rental of property, fines and penalties, other fees and charges.

### SERVICE CHARGES

Service charges imposed under Division 6 of Part 6 of the Local Government Act 1995. Regulation 54 of the Local Government (Financial Management) Regulations 1996 identifies the charges which can be raised. These are television and radio broadcasting, underground electricity and neighbourhood surveillance services and water. Exclude rubbish removal charges which should not be classified as a service charge. Interest and other items of a similar nature received from bank and investment accounts, interest on rate instalments, interest on rate arrears and interest on debtors.

### INTEREST EARNINGS

Interest and other items of a similar nature received from bank and investment accounts, interest on rate instalments, interest on rate arrears and interest on debtors.

### OTHER REVENUE / INCOME

Other revenue, which cannot be classified under the above headings, includes dividends, discounts, rebates etc.

**PROFIT ON ASSET DISPOSAL**

Gain on the disposal of assets including gains on the disposal of long-term investments.

**EXPENSES**

**EMPLOYEE COSTS**

All costs associated with the employment of person such as salaries, wages, allowances, benefits such as vehicle and housing, superannuation, employment expenses, removal expenses, relocation expenses, worker's compensation insurance, conferences, safety expenses, medical examinations, fringe benefit tax, etc.

**MATERIALS AND CONTRACTS**

All expenditures on materials, supplies and contracts not classified under other headings. These include supply of goods and materials, legal expenses, consultancy, maintenance agreements, communication expenses, advertising expenses, membership, periodicals, publications, hire expenses, rental, leases, postage and freight etc.

**UTILITIES (GAS, ELECTRICITY, WATER, ETC.)**

Expenditures made to the respective agencies for the provision of power, gas or water. Exclude expenditures incurred for the reinstatement of roadwork on behalf of these agencies.

**INSURANCE**

All insurance other than worker's compensation and health benefit insurance included as a cost of employment.

**LOSS ON ASSET DISPOSAL**

Loss on the disposal of fixed assets.

**DEPRECIATION ON NON-CURRENT ASSETS**

Depreciation and amortisation expenses raised on all classes of assets.

**FINANCE COSTS**

Interest and other costs of finance paid, including costs of finance for loan debentures, overdraft accommodation and refinancing expenses.

**OTHER EXPENDITURE**

Statutory fees, taxes, provision for bad debts, member's fees or levies including DFES levy and State taxes. Donations and subsidies made to community groups.

<b>Total Rates</b>						<b>46,065,448</b>	<b>43,446,628</b>	<b>43,416,628</b>

All land (other than exempt land) in the City of South Perth is rated according to its Gross Rental Value (GRV).

The general rates detailed for the 2024/25 financial year have been determined by Council on the basis of raising the revenue required to meet the estimated deficiency between the total estimated expenditure proposed in the budget and the estimated revenue to be received from all sources other than general rates and also considering the extent of any increase in rating over the level adopted in the previous year.

The minimum rates have been determined by Council on the basis that all ratepayers must make a reasonable contribution to the cost of local government services and facilities.

1(b). Interest Charges and Instalments – Rates and Service Charges

The following instalment options are available to ratepayers for the payment of rates and services charges:

Instalment Options	Date Due	Instalment Plan Admin Charge	Instalment Plan Interest Rate	Unpaid Rates Interest Rate
		\$	%	%
<b>Option One</b>				
Single Full Payment	16 August 2024	0	0.0%	0.0%
<b>Option Two</b>				
First Instalment	16 August 2024	0	0.0%	0.0%
Second Instalment	6 November 2024	12	5.5%	11.0%
<b>Option Three</b>				
First Instalment	16 August 2024	0	0.0%	0.0%
Second Instalment	16 October 2024	12	5.5%	11.0%
Third Instalment	16 December 2024	12	5.5%	11.0%
Fourth Instalment	17 February 2025	12	5.5%	11.0%

	2024/25 Budget Revenue	2023/24 Estimate Revenue	2023/24 Budget Revenue
	\$	\$	\$
Instalment plan admin charge revenue	160,000	160,000	155,000
Instalment plan interest earned	158,000	156,917	146,269
Unpaid rates and service charge interest earned	300,000	190,000	190,000
	<b>618,000</b>	<b>506,917</b>	<b>491,269</b>

1(c). Objectives and Reasons for Differential Rating

The City does not apply Differential Rating.

1(d). Specified Area Rate

The City did not raise specified area rates charges for the year ended 30 June 2025.

1(e). Rates discounts

The City does not anticipate any rates discount for the year ended 30 June 2025.

1(f). Waivers or concessions

The City does not anticipate any waivers or concessions for the year ended 30 June 2025.

## 1(g). Underground Power South Perth/Hurlingham

Pursuant to Section 6.38(1) of the Local Government Act 1995 and Regulation 54 of the Local Government (Financial Management) Regulations, a service charge for the provision of underground electricity was imposed in the 2022/23 Budget on the owners of properties within a defined part of the District of South Perth, described as South Perth/Hurlingham.

### Description of Land

The South Perth/Hurlingham area is bounded by Canning Highway, Douglas Avenue, Ellam Street and the Swan River Foreshore.

### Description of Service

The project involved the design, installation and commissioning of an underground electricity supply distribution system, costs are recovered as a Network Charge. The project included the conversion of all existing overhead power connections to Underground between the property boundary to the meter box, recovered as a Connection Fee. All charges will be recovered in 5 equal instalments over 5 financial years. Charges are allocated in a tiered manner according to property Gross Rental Values as described below.

South Perth/Hurlingham - Network Charge per unit/dwelling>	2022/23 Adopted Charges	2024/25 Budget Instalment (3 of 5)
	\$	\$
Residential/Commercial GRV < 13,200	3,000	600
Residential/Commercial GRV 13,201 - 26,600	4,300	860
Residential/Commercial GRV 26,601 - 50,000	6,100	1,220
Residential/Commercial GRV > 50,000	6,100 + 20 cents per \$ GRV > 50,000	1,220 + 4 cents per \$ GRV > 50,000
Other^ - Large	18,300	3,660

^Larger properties that are not held or used as Residential or Commercial properties fall under "Other - Large"

> In respect of a property having multiple units or dwellings on a single title, the specified network charge was imposed in respect of each unit or dwelling calculated by reference to the amount of the GRV of the property divided by the number of units or dwellings on the property.

**Note - If the property is sold the outstanding network charge is recovered at property settlement.**

### South Perth/Hurlingham - Connection Fee per unit/dwelling

\*Connection Fee Between \$0 - \$750 Between \$0 - \$150

\*Where connections between the front of the property and the meter box are already wholly or partially underground, this charge will be discounted according to the type of existing connection

**Note - If the property is sold the outstanding connection fee is recovered at property settlement.**

	2022/23 Adopted	2024/25 Budget Instalment (3 of 5)
<b>Service Charge</b>		
South Perth/Hurlingham - Network Charge	7,907,453	1,438,944
South Perth/Hurlingham - Connection Fee	359,438	67,216
<b>Total Service Charge</b>	<b>8,266,891</b>	<b>1,506,160</b>
<b>Less Allocated Expenses</b>	8,186,947	
<b>Net Result Surplus/(Deficit)</b>	<b>79,944</b>

## 2(c). Current / Non-Current Assets – Key Terms

### MATERIAL ACCOUNTING POLICIES

#### CURRENT AND NON-CURRENT CLASSIFICATION

The asset or liability is classified as current if it is expected to be settled within the next 12 months, being the City's operational cycle. In the case of liabilities where the City does not have the unconditional right to defer settlement beyond 12 months, such as vested long service leave, the liability is classified as current even if not expected to be settled within the next 12 months. Inventories held for trading are classified as current or non-current based on the City's intentions to release for sale.

#### TRADE AND OTHER PAYABLES

Trade and other payables represent liabilities for goods and services provided to the City prior to the end of the financial year that are unpaid and arise when the City becomes obliged to make future payments in respect of the purchase of these goods and services. The amounts are unsecured, are recognised as a current liability and are normally paid within 30 days of recognition. The carrying amounts of trade and other payables are considered to be the same as their fair values, due to their short-term nature.

#### PREPAID RATES

Prepaid rates are, until the taxable event has occurred (start of the next financial year), refundable at the request of the ratepayer. Rates received in advance are initially recognised as a financial liability. When the taxable event occurs, the financial liability is extinguished and the City recognises revenue for the prepaid rates that have not been refunded.

#### INVENTORIES

##### General

Inventories are measured at the lower of cost and net realisable value.

Net realisable value is the estimated selling price in the ordinary course of business less the estimated costs of completion and the estimated costs necessary to make the sale.

##### Superannuation

The City contributes to a number of superannuation funds on behalf of employees. All funds to which the City contributes are defined contribution plans.

#### LAND HELD FOR RESALE

Land held for development and sale is valued at the lower of cost and net realisable value. Cost includes the cost of acquisition, development, borrowing costs and holding costs until completion of development. Finance costs and holding charges incurred after development is completed are expensed.

Gains and losses are recognised in profit or loss at the time of signing an unconditional contract of sale if significant risks and rewards, and effective control over the land, are passed on to the buyer at this point.

Land held for resale is classified as current except where it is held as non-current based on the City's intentions to release for sale.

#### GOODS AND SERVICES TAX (GST)

Revenues, expenses and assets are recognised net of the amount of GST, except where the amount of GST incurred is not recoverable from the Australian Taxation Office (ATO).

Receivables and payables are stated inclusive of GST receivable or payable. The net amount of GST recoverable from, or payable to, the ATO is included with receivables or payables in the statement of financial position.

Cash flows are presented on a gross basis. The GST components of cash flows arising from investing or financing activities which are recoverable from, or payable to, the ATO are presented as operating cash flows.

#### TRADE AND OTHER RECEIVABLES

Trade and other receivables include amounts due from ratepayers for unpaid rates and service charges and other amounts due from third parties for grants, contributions, reimbursements, and goods sold and services performed in the ordinary course of business.

Trade and other receivables are recognised initially at the amount of consideration that is unconditional, unless they contain significant financing components, when they are recognised at fair value.

Trade receivables are held with the objective to collect the contractual cashflows and therefore the City measures them subsequently at amortised cost using the effective interest rate method.

Due to the short term nature of current receivables, their carrying amount is considered to be the same as their fair value. Non-current receivables are indexed to inflation, any difference between the face value and fair value is considered immaterial.

The City applies the AASB 9 simplified approach to measuring expected credit losses using a lifetime expected loss allowance for all trade receivables. To measure the expected credit losses, rates receivable are separated from other trade receivables due to the difference in payment terms and security for rates receivable.

#### PROVISIONS

Provisions are recognised when the City has a present legal or constructive obligation, as a result of past events, for which it is probable that an outflow of economic benefits will result and that outflow can be reliably measured.

Provisions are measured using the best estimate of the amounts required to settle the obligation at the end of the reporting period.

#### EMPLOYEE BENEFITS

##### Short-term employee benefits

Provision is made for the City's obligations for short-term employee benefits. Short term employee benefits are benefits (other than termination benefits) that are expected to be settled wholly before 12 months after the end of the annual reporting period in which the employees render the related service, including wages, salaries and sick leave. Short-term employee benefits are measured at the (undiscounted) amounts expected to be paid when the obligation is settled.

The City's obligations for short-term employee benefits such as wages, salaries and sick leave are recognised as a part of current trade and other payables in the determination of the net current asset position.

The City's obligations for employees' annual leave and long service leave entitlements are recognised as provisions in the determination of the net current asset position.

##### Other long-term employee benefits

Long-term employee benefits provisions are measured at the present value of the expected future payments to be made to employees. Expected future payments incorporate anticipated future wage and salary levels, durations of service and employee departures and are discounted at rates determined by reference to market yields at the end of the reporting period on government bonds that have maturity dates that approximate the terms of the obligations. Any remeasurements for changes in assumptions of obligations for other long-term employee benefits are recognised in profit or loss in the periods in which the changes occur.

The City's obligations for long-term employee benefits are presented as non-current provisions in its statement of financial position, except where the City does not have an unconditional right to defer settlement for at least 12 months after the end of the reporting period, in which case the obligations are presented as current provisions.

3(b). Reconciliation of Cash – Key Terms

**MATERIAL ACCOUNTING POLICIES**

**CASH AND CASH EQUIVALENTS**

Cash and cash equivalents include cash on hand, cash at bank, deposits available on demand with banks, other short term highly liquid investments that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value and bank overdrafts.

Bank overdrafts are shown as short term borrowings in current liabilities in Note 2 - Net Current Assets.

**FINANCIAL ASSETS AT AMORTISED COST**

The City classifies financial assets at amortised cost if both of the following criteria are met:

- the asset is held within a business model whose objective is to collect the contractual cashflows, and
- the contractual terms give rise to cash flows that are solely payments of principal and interest.

#### 4(d). Fixed Assets - Key Terms

##### MATERIAL ACCOUNTING POLICIES

###### Initial recognition

An item of property, plant and equipment or infrastructure that qualifies for recognition as an asset is measured at its cost.

Upon initial recognition, cost is determined as the amount paid (or other consideration given) to acquire the assets, plus costs incidental to the acquisition. The cost of non-current assets constructed by the City includes the cost of all materials used in construction, direct labour on the project and an appropriate proportion of variable and fixed overheads. For assets acquired at zero cost or otherwise significantly less than fair value, cost is determined as fair value at the date of acquisition.

Assets for which the fair value as at the date of acquisition is under \$5,000 are not recognised as an asset in accordance with *Local Government (Financial Management) Regulation 17A(5)*. These assets are expensed immediately.

Where multiple individual low value assets are purchased together as part of a larger asset or collectively forming a larger asset exceeding the threshold, the individual assets are recognised as one asset and capitalised.

Individual assets that are land, buildings and infrastructure acquired between scheduled revaluation dates of the asset class in accordance with the City's revaluation policy, are recognised at cost and disclosed as being at reportable value.

###### Measurement after recognition

Plant and equipment including furniture and equipment and right-of-use assets (other than vested improvements) are measured using the cost model as required under *Local Government (Financial Management) Regulation 17A(2)*. Assets held under the cost model are carried at cost less accumulated depreciation and any impairment losses being their reportable value.

###### Reportable Value

In accordance with *Local Government (Financial Management) Regulation 17A(2)*, the carrying amount of non-financial assets that are land and buildings classified as property, plant and equipment, investment properties, infrastructure or vested improvements that the local government controls.

Reportable value is for the purpose of Local Government (Financial Management) Regulation 17A(4) is the fair value of the asset at its last valuation date minus (to the extent applicable) the accumulated depreciation and any accumulated impairment losses in respect of the non-financial asset subsequent to its last valuation date.

###### Revaluation

Land and buildings classified as property, plant and equipment, infrastructure or vested improvements that the local government controls and measured at reportable value, are only required to be revalued every five years in accordance with the regulatory framework. This includes buildings and infrastructure items which were pre-existing improvements (i.e. vested improvements) on land vested in the City.

Whilst the regulatory framework only requires a revaluation to occur every five years, it also provides for the City to revalue earlier if it chooses to do so.

For land, buildings and infrastructure, increases in the carrying amount arising on revaluation of asset classes are credited to a revaluation surplus in equity.

Decreases that offset previous increases of the same class of asset are recognised against revaluation surplus directly in equity. All other decreases are recognised in profit or loss.

Subsequent increases are then recognised in profit or loss to the extent they reverse a net revaluation decrease previously recognised in profit or loss for the same class of asset.

###### Depreciation

The depreciable amount of all property, plant and equipment and infrastructure, are depreciated on a straight-line basis over the individual asset's useful life from the time the asset is held ready for use. Leasehold improvements are depreciated over the shorter of either the unexpired period of the lease or the estimated useful life of the improvements.

The assets residual values and useful lives are reviewed, and adjusted if appropriate, at the end of each reporting period.

###### Depreciation on revaluation

When an item of property, plant and equipment and infrastructure is revalued, any accumulated depreciation at the date of the revaluation is treated in one of the following ways:

- (i) The gross carrying amount is adjusted in a manner that is consistent with the revaluation of the carrying amount of the asset.
- (ii) Eliminated against the gross carrying amount of the asset and the net amount restated to the revalued amount of the asset.

### **Impairment**

In accordance with *Local Government (Financial Management) Regulations 17A(4C)*, the City is not required to comply with

AASB 136 *Impairment of Assets* to determine the recoverable amount of its non-financial assets that are land or buildings classified as property, plant and equipment, infrastructure or vested improvements that the local government controls in circumstances where there has been an impairment indication of a general decrease in asset values.

In other circumstances where it has been assessed that one or more of these non-financial assets are impaired, the asset's carrying amount is written down immediately to its recoverable amount if the asset's carrying amount is greater than its estimated recoverable amount.

### **GAINS AND LOSSES ON DISPOSAL**

Gains and losses on disposals are determined by comparing proceeds with the carrying amount. These gains and losses are included in profit or loss in the period which they arise.

### **AUSTRALIAN ACCOUNTING STANDARDS - INCONSISTENCY**

#### **Vested improvements**

The *Local Government (Financial Management) Regulations 1996* take precedence over Australian Accounting Standards. See The Statement of Comprehensive Income by Nature and Type - Key Terms – Basis of Preparation for more information.

## 5. ASSET DEPRECIATION

### 5(a). Asset Depreciation by Program

<b>Total by class</b>		<b>14,130,786</b>	<b>13,758,696</b>	<b>12,995,660</b>

## 5(c). Asset Depreciation - Key Terms

### MATERIAL ACCOUNTING POLICIES

#### DEPRECIATION

The depreciable amount of all fixed assets including buildings but excluding freehold land, are depreciated on a straight-line basis over the individual asset's useful life from the time the asset is held ready for use. Leasehold improvements are depreciated over the shorter of either the unexpired period of the lease or the estimated useful life of the improvements.

The assets residual values and useful lives are reviewed, and adjusted if appropriate, at the end of each reporting period.

An asset's carrying amount is written down immediately to its recoverable amount if the asset's carrying amount is greater than its estimated recoverable amount.

Major depreciation periods used for each class of depreciable asset are:

Artworks	50 years
Buildings (based on components)	10 - 100 years
Plant and Equipment	10 - 25 years
Furniture and Fittings	10 - 20 years
Technological Equipment (includes optic fiber)	3 - 25 years
Mobile Plant	3 - 10 years
Infrastructure - Roads	20 - 110 years
Infrastructure - Drains	up to 100 years
Infrastructure - Paths (dependent on path type)	40 - 65 years
Infrastructure - Street Furniture	20 - 30 years
Infrastructure - Parks Equipment (Based on components)	10 - 50 years
Infrastructure - Car Parking (Based on components)	3 - 90 years
Foreshore Assets	up to 100 years
Intangible Assets	10 years

Gains and losses on disposals are determined by comparing proceeds with the carrying amount. These gains and losses are included in profit or loss in the period which they arise.

#### DEPRECIATION (CONTINUED)

When an item of property, plant and equipment is revalued, any accumulated depreciation at the date of the revaluation is treated in one of the following ways:

a) Restated proportionately with the change in the gross carrying amount of the asset so that the carrying amount of the asset so that the carrying amount of the asset after revaluation equals its revalued amount; or

b) Eliminated against the gross carrying amount of the asset and the net amount restated to the revalued amount of the asset.

#### IMPAIRMENT OF ASSETS

In accordance with *Australian Accounting Standards*, the City's assets other than inventories are assessed at each reporting date to determine whether or not there is any indication that they may be impaired. Where such an indication exists, an estimate of the recoverable amount of the asset is made in accordance with the provisions of *AASB 136 Impairment of Assets* - and appropriate adjustments are made. Impairment losses are recognised immediately in the Statement of Comprehensive Income.

For non-cash generating assets such as roads, paths, drains and public buildings, no annual assessment is required. Rather *AASB 116.31* applies and revaluations need only be made with sufficient regularity to ensure the carrying value does not differ materially from that which would be determined using fair value.

6(c). Borrowing Repayments

All borrowing repayments, other than self-supporting loans, will be financed by general purpose revenue. The self-supporting loan(s) repayment will be fully reimbursed.

6(d). New Borrowing

A short term facility to fund the redevelopment of the Collier Park Golf Course Facilities, once the development works are complete this facility will be converted into a 10 year long term loan. All costs incurred in relation to the short term facility will be capitalised and form part of the 10 year long term loan. Future repayments to be funded from golf revenue and a proportionate contribution from the golf course operator.

6(g). Information on Borrowings – Key Terms

**MATERIAL ACCOUNTING POLICIES**

**BORROWING COSTS**

All loans and borrowings are initially recognised at fair value less directly attributable transaction costs. Following initial recognition, interest bearing loans and borrowings are measured at amortised cost.

Fees paid on the establishment of loan facilities that are yield related are included in the carrying amount of the borrowings. Interest bearing loans and borrowings are classified as current liabilities unless the City has an unconditional right to defer settlement of that liability for at least 12 months after balance date.

9(b). Grant Revenue - Capital

<b>Capital grants, subsidies and contributions</b>			
Recreation and culture	6,360,626	558,695	1,190,816
Transport	1,133,007	1,842,079	1,215,829
<b>Total capital grants, subsidies and contributions</b>	<b>7,493,633</b>	<b>2,400,775</b>	<b>2,406,645</b>

## 10. REVENUE RECOGNITION – KEY TERMS

### MATERIAL ACCOUNTING POLICIES

#### Revenue Recognition

Recognition of revenue is dependent on the source of revenue and the associated terms and conditions associated with each source of revenue.

Revenue is recognised and measured at the fair value of the consideration received or receivable to the extent that the performance obligations under contracts have been satisfied and the revenue can be reliably measured. Contract receivables and contract liabilities are recognised at stages to reflect entitlements and obligations within the agreements. The following specific recognition criteria must also be met before revenue is recognised:

Fees and charges, excluding infringements, are recognised either on the date on which the services were provided, or over the period, based on the conditions as per the City's published Fees and Charges Schedule.

Interest revenue is recognised as interest and accrued using the effective interest method. This is a method of calculating the amortised cost of a financial asset and allocating the interest income over the relevant period using the effective interest rate (EIR), which is the rate that exactly discounts estimated future cash receipts through the expected life of the financial asset to the net carrying amount of the financial asset.

Rental income is accounted for on a straight-line basis over the lease term.

Revenue from other services are generally recognised on the date the services are provided to the customer.

Rates revenue is recognised as income when the associated taxable event occurs (i.e. when the rate in the dollar is struck and the invoice is issued). Prepaid rates are a financial liability and not recorded as revenue until the associated taxable event occurs. Similarly, infringements are recognised as income when the associated transgression event occurs (i.e. when the infringement notice is issued).

For operating grants, subsidies and contribution, the City assessed funding agreements with grant providers to determine the accounting standard that is applicable to individual funding streams. Wherever applicable, revenue is recognised when the City satisfies sufficiently specific performance obligations. Contract receivables and contract liabilities are recognised at stages to reflect entitlements and obligations within the agreements. For funding agreements that do not contain sufficiently specific performance obligations, revenue is recognised when the City gains control of the funds.

Non-operating grants, subsidies and contributions are recognised as revenue when the City satisfies the obligations specified in the grant agreements. The City relies on percentage of completion confirmed by the project manager when evaluating the City's progress towards complete satisfaction of the obligation at the end of each reporting period.

Volunteer services are not recognised as revenue as the fair value of the services cannot be reliably estimated.

## 11. OTHER INFORMATION

	2024/25 Budget	2023/24 Estimate	2023/24 Budget
The net result includes as revenues:	\$	\$	\$

Total	<b>22,900</b>	<b>27,550</b>	<b>27,550</b>

## 11(g). Leases – Key Terms

### MATERIAL ACCOUNTING POLICIES

#### LEASES

At the inception of a contract, the City assesses whether the contract is, or contains, a lease.

A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

At the commencement date, a right-of-use asset is recognised at cost and a lease liability.

At the present value of the lease payments that are not paid at that date. The lease payments are discounted using the interest rate implicit in the lease, if that rate can be readily determined.

If that rate cannot be readily determined, the City uses its incremental borrowing rate.

12. ELECTED MEMBERS REMUNERATION

	2024/25 Budget	2023/24 Estimate	2023/24 Budget
	\$	\$	\$

### 13. MAJOR LAND TRANSACTIONS AND TRADING UNDERTAKINGS

It is not anticipated that the City will be party to any Major Trading Undertakings during 2024/25.

The City considers the redevelopment work (consistent with the Collier Park Golf Course tender awarded in December 2023) to constitute a major land transaction and intends to advertise the business plan early in the 2024/25 financial year. The redevelopment work is to be undertaken in conjunction with the incumbent course controller. It is anticipated that the Golf Course redevelopment which does not change the course layout but rather involves the construction of a multistorey driving range, new function facility, office space, kitchen, clubhouse, pro shop and padel courts will be completed over a period of approximately two years. Contributions will be made by both the City and the course operator. This year's capital expenditure inclusive of borrowing costs has been included in the capital budget, the costs break down below excludes borrowing costs (refer to note 6 (d) for borrowing costs):

	<b>2024/25 Budget</b>	<b>2025/26 Forecast</b>	<b>Total</b>
	\$	\$	\$
Capital Expenditure	4,437,000	13,342,000	17,779,000

#### 14. INTEREST IN JOINT VENTURE ARRANGEMENTS

It is not anticipated that the City will be party to any Joint Venture Arrangements during 2024/25.

##### 14(a). Interest in Joint Arrangements – Key Terms

###### MATERIAL ACCOUNTING POLICIES

###### INTERESTS IN JOINT ARRANGEMENTS

Joint arrangements represent the contractual sharing of control between parties in a business venture where unanimous decisions about relevant activities are required.

Separate joint venture entities providing joint venturers with an interest to net assets are classified as a joint venture and accounted for using the equity method.

Joint venture operations represent arrangements whereby joint operators maintain direct interests in each asset and exposure to each liability of the arrangement. The City of South Perth's interests in the assets liabilities revenue and expenses of joint operations are included in the respective line items of the financial statements.

#### 15. TRUST FUNDS

The City does not anticipate holding trust funds during the 2024/25 budget year.

##### 15(a). Trust Funds – Key Terms

###### MATERIAL ACCOUNTING POLICIES

###### TRUST FUNDS

The City is required under the *Local Government Act* to maintain a separate and distinct Trust Fund to account for all monies held by way of deposit or in trust for any person, all monies held on behalf for specific purposes and all monies and property held in trust for any charitable or public purpose.

The City performs only a custodial role in respect of these monies and they cannot be used for City purposes.

All Trust Funds and the related liabilities to repay those deposits and bonds are excluded from the annual financial statements.

## 16. OTHER INFORMATION – KEY TERMS

### MATERIAL ACCOUNTING POLICIES

#### GOODS AND SERVICES TAX

Revenues, expenses and assets are recognised net of the amount of GST, except where the amount of GST incurred is not recoverable from the Australian Taxation Office (ATO). In these circumstances the GST is recognised as part of the cost of acquisition of the asset or as part of an item of expense.

Receivables and payables are stated with the amount of GST included. The net amount of GST recoverable from, or payable to, the ATO is included as a current asset or liability in the Statement of Financial Position. Cash flows are included in the Statement of Cash Flows on a gross basis. The GST components of cash flows arising from investing or financing activities which are recoverable from, or payable to, the ATO are presented as operating cash flows in the statement.

#### CRITICAL ACCOUNTING ESTIMATES

The preparation of these financial statements in conformity with *Australian Accounting Standards* requires management to make judgements, estimates and assumptions that effect the application of policies and reported amounts of assets and liabilities, income and expenses.

All such estimates are based on historical experience and other factors that are believed to be reasonable under the circumstances. This experience and other relevant factors combine to form the basis for making professional judgements about the carrying values of assets and liabilities that may not otherwise be readily apparent. Realised actual results may therefore differ from these professional estimates.

#### ROUNDING OFF FIGURES

Figures in this financial report, other than the rate in the \$, are rounded to the nearest dollar.

#### COMPARATIVE FIGURES

Unless otherwise stated, the budget comparative figures shown in this annual financial report relate to the original budget adopted by Council and does not include any subsequent amendments.

#### BUDGET COMPARATIVE FIGURES

Unless otherwise stated, the budget comparative figures shown in the budget relate to the original budget estimate for the relevant item of disclosure.

#### ALLOCATION OF CORPORATE COSTS

Allocation of corporate costs using Activity Based Costing principles has been included in this financial report. This allocation of costs has a neutral impact upon the overall operating result of the City but results in a more accurate reflection of the costs of providing specific services by

incorporating an allocation for corporate services provided to service areas.

#### INVESTMENTS & OTHER FINANCIAL INSTRUMENTS

**Initial Recognition and Measurement** Financial assets and financial liabilities are recognised when the Council becomes a party to the contractual provisions to the instrument. For financial assets, this is equivalent to the amount that the Council commits itself to either the purchase or sale of the asset (that is, trade date accounting is adopted).

Financial instruments are initially measured at fair value plus transaction costs, except where the instrument is classified 'at fair value through profit or loss', in which case transaction costs are expensed to profit or loss immediately.

**Classification and Subsequent Measurement** Financial instruments are subsequently measured at fair value, amortised cost using the effective interest rate method, or cost.

Amortised cost is calculated as:

- (a) the amount at which the financial asset or financial liability is measured at initial recognition;
- (b) less principal repayments and any reduction for impairment; and
- (c) plus or minus the cumulative amortisation of the difference, if any, between the amounts initially recognised and the maturity amount calculated using the effective interest rate method.

The effective interest method used is to allocate interest income or interest expense over the relevant period and the effective interest rate is equivalent to the rate that discounts estimated future cash payments or receipts (including fees, transaction costs and other premiums or discounts) through the expected life (or when this cannot be reliably predicted, the contractual term) of the financial instrument to the net carrying amount of the financial asset or financial liability.

Revisions to expected future net cash flows will necessitate an adjustment to the carrying value with a consequential recognition of an income or expense in profit or loss.

- (i) **Financial assets at fair value through profit and loss** Financial assets are classified at 'fair value through profit or loss' when they are held for trading for the purpose of short-term profit taking. Such assets are subsequently measured at fair value with changes in carrying amount being included in profit or loss. Assets in this category are classified as current assets.

## MATERIAL ACCOUNTING POLICIES (Continued)

### (ii) Loans and receivables

Loans and receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market and are subsequently measured at amortised cost. Loans and receivables are included in current assets where they are expected to mature within 12 months after the end of the reporting period.

### (iii) Held-to-maturity investments

Held-to-maturity investments are non-derivative financial assets with fixed maturities and fixed or determinable payments that the Council has the positive intention and ability to hold to maturity.

They are subsequently measured at amortised cost. Gains or losses are recognised in profit or loss

Held-to-maturity investments are included in current assets where they are expected to mature within 12 months after the end of the reporting period. All other investments are classified as non-current.

(iv) Available-for-sale financial assets are non-derivative financial assets that are either not suitable to be classified into other categories of financial assets due to their nature, or they are designated as such by management. They comprise investments in the equity of other entities where there is neither a fixed maturity nor fixed or determinable payments.

They are subsequently measured at fair value with changes in such fair value (i.e. gains or losses) recognised in other comprehensive income (except for impairment losses). When the financial asset is derecognised, the cumulative gain or loss pertaining to that asset previously recognised in other comprehensive income is reclassified into profit or loss.

Available-for-sale financial assets are included in current assets, where they are expected to be sold within 12 months after the end of the reporting period. All other available-for-sale financial assets are classified as non-current.

(v) Financial liabilities Non-derivative financial liabilities (excluding financial guarantees) guarantees) are subsequently measured at amortised cost. Gains or losses are recognised in profit or loss.

### Impairment

A financial asset is deemed to be impaired if, and only if, there is objective evidence of impairment as a result of one or more events (a "loss event") having occurred, which has an impact on the estimated future cash flows of the financial asset(s).

In the case of available-for-sale financial assets, a significant or prolonged decline in the market value of the

instrument is considered a loss event. Impairment losses are recognised in profit or loss immediately. Also, any cumulative decline in fair value previously recognised in other comprehensive income is reclassified to profit or loss at this point.

Loss events for financial assets carried at amortised cost may include: indications that the debtors or group of debtors are experiencing significant financial difficulty, default or delinquency in interest or principal payments; indications that they will enter bankruptcy or other financial reorganisation; and changes in arrears or economic conditions correlating with defaults.

For financial assets carried at amortised cost (including loans and receivables), a separate allowance account is used to reduce the carrying amount of financial assets impaired by credit losses.

After having taken all possible measures of recovery, if management establishes that the carrying amount cannot be recovered by any means, at that point the written-off amounts are charged to the allowance account or the carrying amount of impaired financial assets is reduced directly if no impairment amount was previously recognised in the allowance account.

### De-recognition

Financial assets are derecognised where the contractual rights to receipt of cash flows expire or the asset is transferred to another party whereby the Council no longer has any significant continual involvement in the risks and benefits associated with the asset.

Financial liabilities are derecognised where the related obligations are discharged, cancelled or expired. The difference between the carrying amount of the financial liability extinguished or transferred to another party and the fair value of the consideration paid, including the transfer of non-cash assets or liabilities assumed, is recognised in profit or loss.

### INTANGIBLES

(i) Easements Local Governments are required to recognise easements in their Financial Statements where the asset can be identified and reliably measured. The City has easements over certain small portions of land but it is not possible to reliably measure these. Accordingly they are recognised at nil value.

(ii) Software Costs incurred in developing software that will contribute to future period financial benefits through revenue generation or cost reduction are capitalised to software and systems. Costs capitalised include external direct costs of software development including consultancy, programming and data migration services. Amortisation is calculated on a straight line basis over 10

## MATERIAL ACCOUNTING POLICIES (continued)

years. Technology development costs include only those costs directly attributable to the development phase and are only recognised following completion of technical feasibility and where the City has an intention and ability to use the asset.

### Other Long-Term Employee Benefits

Provision is made for employees' long service leave and annual leave entitlements not expected to be settled wholly within 12 months after the end of the annual reporting period in which the employees render the related service. Other long-term employee benefits are measured at the present value of the expected future payments to be made to employees. Expected future payments incorporate anticipated future wage and salary levels, durations or service and employee departures and are discounted at rates determined by reference to market yields at the end of the reporting period on government bonds that have maturity dates that approximate the terms of the obligations.

Any re-measurements for changes in assumptions of obligations for other long-term employee benefits are recognised in profit or loss in the periods in which the changes occur. The City's obligations for long-term employee benefits are presented as non-current provisions in its statement of financial position except where the City does not have the unconditional right to defer settlement beyond 12 months, which is then recognised as a current liability.

### Fair Value Measurement of Assets & Liabilities

When performing a revaluation, the Council uses a mix of both independent and management valuations using the following as a guide: Fair Value is the price that Council would receive to sell the asset or would have to pay to transfer a liability, in an orderly (i.e. unforced) transaction between independent, knowledgeable and willing market participants at the measurement date.

As fair value is a market-based measure, the closest equivalent observable market pricing information is used to determine fair value. Adjustments to market values may be made having regard to the characteristics of the specific asset. The fair values of assets that are not traded in an active market are determined using one or more valuation techniques. These valuation techniques maximise, to the extent possible, the use of observable market data.

To the extent possible, market information is extracted from either the principal market for the asset (i.e. the market with the greatest volume and level of activity for the asset) or, in the absence of such a market, the most advantageous market available to the entity at the end of the reporting period (i.e. the market that maximises the

receipts from the sale of the asset after taking into account transaction costs and transport costs).

For non-financial assets, the fair value measurement also takes into account a market participant's ability to use the asset in its highest and best use or to sell it to another market participant that would use the asset in its highest and best use.

### Fair Value Hierarchy

AASB 13 requires the disclosure of fair value information by level of the fair value hierarchy, which categorises fair value measurement into one of three possible levels based on the lowest level that an input that is significant to the measurement can be categorised into as follows:

#### Level 1

Measurements based on quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at the measurement date.

#### Level 2

Measurements based on inputs other than quoted prices included in Level 1 that are observable for the asset or liability either directly or indirectly.

#### Level 3

Measurements based on unobservable inputs for the asset or liability.

The fair values of assets and liabilities that are not traded in an active market are determined using one or more valuation techniques. These valuation techniques maximise, to the extent the use of observable market data. If all significant inputs required to measure fair value are observable, the asset or liability is included in Level 2. If one or more significant inputs are not based on observable market data, the asset or liability is included in Level 3.

### Valuation techniques

The Council selects a valuation technique that is appropriate the circumstances and for which sufficient data is available to measure fair value. The availability of sufficient and relevant data primarily depends on the specific characteristics of the asset or liability being measured. The valuation techniques selected by the Council are consistent with one or more of the following valuation approaches:

#### Market approach

Valuation techniques that use prices and other relevant information generated by market transactions for identical or similar assets or liabilities.

**MATERIAL ACCOUNTING POLICIES (continued)**

**Income approach**

Valuation techniques that convert estimated future cash flows or income and expenses into a single discounted present value.

**Cost approach**

Valuation techniques reflect the current replacement cost of an asset at current service capacity.

Each valuation technique requires inputs that reflect the assumptions that buyers and sellers would use when pricing the asset or liability, including assumptions about risks. When selecting a valuation technique, the Council gives priority to those techniques that maximise the use of observable inputs that are developed using market data (such as publicly available information on actual

transactions) and reflect the assumptions that buyers and sellers would generally use when pricing the asset or liability and considered observable, whereas inputs for which market data is not available and therefore are inputs for which market data is not available and therefore assumptions are considered unobservable.

As detailed above, the mandatory measurement framework imposed by the Local Government (Financial Management) Regulations requires, as a minimum, all assets carried at a revalued amount to be revalued at least every 5 years.

## 17. PROGRAM INFORMATION

### Comprehensive Income by Reporting Program – Key Terms and Definitions

#### KEY TERMS AND DEFINITIONS - REPORTING PROGRAMS

In order to discharge its responsibilities to the community, Council has developed a set of operational and financial objectives. These objectives have been established both on an overall basis, reflected by the City's Community Vision, and for each of its broad activities/programs.

#### VISION

Our vision statement describes how the City of South Perth will respond to the community's aspirations and priorities in the future. The community vision was identified through the Our Vision Ahead project:

'A City of active places and beautiful spaces. A connected community with easily accessible, vibrant neighbourhoods and a unique, sustainable natural environment.'

#### OBJECTIVE

#### ACTIVITIES

##### GOVERNANCE

To provide a decision-making process for the efficient allocation of scarce resources.

The programme reflects the statutory element of local government operations including Council Member support, community consultation and involvement, statutory reporting, compliance and accountability.

##### GENERAL PURPOSE FUNDING

To collect revenue to allow for the provision of services.

Rates, general purpose government grants and interest revenue.

##### LAW, ORDER, PUBLIC SAFETY

To provide services to help ensure a safer and environmentally conscious community.

This programme embraces parking management, animal control, fire prevention and Safer Cities.

##### HEALTH

To provide an operational framework for environmental and community health.

The health programme includes food premises inspections pest control, environmental health administration, and operation and maintenance of the buildings and grounds of child health centres.

##### EDUCATION AND WELFARE

To provide services to disadvantaged persons, the elderly, children and youth.

The education programme includes the maintenance of pre-school facilities including the operating costs for utilities, building maintenance and grounds maintenance for each of these facilities.

The welfare programme includes the operation and maintenance of located the buildings and grounds of senior citizens centres located at Manning and South Perth which represent the major components of this programme. Also included are staff costs for coordinators at the centre and other voluntary services.

##### HOUSING

To provide and maintain elderly residents housing.

The largest single component of this programme is the operation and maintenance of the Collier Park Retirement Village. This includes all operating costs for the facilities and the revenue streams arising from residents' fees and government subsidies.

##### COMMUNITY AMENITIES

To provide services required by the community.

This programme includes household rubbish collection services, recycling collections and operation of the waste transfer station. The other major component of the Community Amenities programme is administration of the town planning scheme and orderly planning of the district.

**KEY TERMS AND DEFINITIONS - REPORTING PROGRAMS (continued)**

**OBJECTIVE**

**ACTIVITIES**

**RECREATION AND CULTURE**

To establish and effectively manage infrastructure and resources which will help the social wellbeing of the community.

The main component of the revenue stream for this programme is the operation of a 27 hole golf course and mini golf at Collier Park. Activities associated with supporting community and cultural organisations form part of the recreation and culture programme.

**TRANSPORT**

To provide safe, effective and efficient transport services to the community.

The transport programme includes the maintenance and rehabilitation of roads, drainage works, paths, parking facilities streetscape and verge maintenance as well as maintenance of traffic devices and traffic signs and expenses relating to street lighting.

**ECONOMIC SERVICES**

To help promote the local government and its economic wellbeing.

This programme includes building control, pool inspections, underground power and the operation of the City's plant nursery.

**OTHER PROPERTY AND SERVICES**

To monitor and control operating accounts.

This programme includes public works overheads and operation of the City's fleet and plant services
