

CITY OF SOUTH PERTH

ANNUAL BUDGET

2008/2009

1. INTRODUCTION

Effective financial management is one of the most important services that a local government can provide for the community. The 2008/2009 City of South Perth Annual Budget is built upon a foundation of responsible and sustainable management of the City's financial resources. It provides for a range of relevant services to meet identified community needs. Thoughtfully selected capital initiatives support the continuing budget themes of 'creating a connected community' and 'building for a sustainable future'.

Aligned with the direction identified in the City's Strategic Plan and consistent with the financial parameters in the Strategic Financial Plan, this Budget provides a blueprint for accountable and responsible management of the City's financial resources in 2008/2009.

The strategies on which the Annual Budget was based are :

- To deliver a level of funding which is both economically responsible and sustainable.
- To exercise responsible management of the City's financial resources.
- To finance a pro-active program to maintain and enhance the City's infrastructure assets.
- To ensure cost effective delivery of a high level of relevant services to the City's ratepayers.

By monitoring community feedback, contemporary trends in best practice service delivery and critically evaluating its services, the City has responsibly planned to enhance the range, quality and suitability of the services it delivers to the community. Numerous community forums, workshops, customer surveys and public submissions have provided valuable feedback that has influenced the direction of the budget - and complemented the work of the Council Members and professional officers in developing the 2008/2009 Budget.

The 2008/2009 Budget recognises community interests, respects our stewardship responsibilities and ensures that value for money remains a dominant theme. Meeting the challenge of maximising value for money, the City will use this budget to build upon its existing solid financial foundations and established strategic direction - to ensure that our community remains financially, socially and environmentally sustainable.

The City of South Perth 2008/2009 Annual Budget Schedules incorporate all of the relevant statutory elements. These have been extracted from the detailed management budgets that will be used by the City's operational and executive managers to monitor and administer the City's finances.

OPERATING REVENUE AND EXPENDITURE

The Operating Budgets are developed from the City's strategic direction, Strategic Financial Plan and forward financial projections. Management Budgets are considered by each of the City's operating departments before being reviewed for alignment and approved by the Executive and ultimately by Council. The organisational structure, based on four distinct directorates (consistent with the Monthly Financial Report groupings), forms the basis for the Management Budgets. This permits comparative analysis between years. The Statutory Budget includes all disclosures required by relevant legislation and regulations.

Operating Revenue and Expenditure includes all programs which have been endorsed by Council during the past year for inclusion in the 2008/2009 Annual Budget. The operating budgets acknowledge the strategic direction given by Council and incorporate the feedback received from major stakeholders in the community during the budget development process.

In accordance with statutory requirements, the Budget includes full cost accounting using activity based costing (ABC) principles to attribute corporate costs to those programs causing them to be incurred.

CAPITAL EXPENDITURE PROGRAM

The Capital Expenditure Program was formulated using asset management systems which determine the optimum time to conduct repairs and remedial work on the City's infrastructure assets (roads, paths, drains, parks etc) to maintain these assets in the best condition at the least cost. The 2008/2009 Capital Budget supports responsible spending on roads, paths and drainage. Other infrastructure capital initiatives include reticulation, park and playground upgrades as part of the City's commitment to provide effective management and maintenance of its infrastructure assets. Building assets again receive a higher profile in the Budget - consistent with community expectations identified through several recent studies and surveys. This is expected to continue over the next few years as ageing buildings are upgraded to better respond to community needs. In addition to assisting the City to meet its goals of enhancing its natural environment, transport infrastructure and buildings, the 2008/2009 Capital Program includes funding for the balance of the Stage 3 Underground Power Project in Como East (a state government initiative).

MOVEMENTS IN RESERVES

Funding to and from Reserves for 2008/2009 continues to demonstrate the benefits of prudent forward financial planning undertaken by the City to anticipate significant future financial obligations. Funds placed into Reserves over a number of years have given the City further funding options when making financial decisions concerning major asset preservation and new projects. Significant works in 2008/2009 will be supported by monies previously provided in reserves including information technology, plant & equipment and reticulation replacement - all of which will enjoy contributions from cash-backed reserves accumulated in prior years.

MUNICIPAL BORROWINGS

Currently the City has seven self-supporting loans to community groups which are funded directly by community groups and do not require input from the community via the Municipal Fund. The City undertook fixed rate borrowings totalling \$3.0M (repayable over 10 years) in late 2003/2004 and in 2004/2005 as a legitimate strategic funding option included in the overall funding package for major elements of the capital program. A further \$3.0M fixed rate borrowing is proposed for 2008/2009 (after being deferred from 2007/2008). These borrowings take advantage of special treasury borrowing rates that are lower than commercial lenders (which are then fixed). All borrowings are in accordance with the City's debt policy (P604) and debt covenants - and are in strict accordance with Section 6.20 of the Local Government Act.

2 BUDGET PARAMETERS

The significant assumptions on which the 2008/2009 Annual Budget have been developed are:

- (a) Rates will be levied on the Gross Rental Value of all ratable properties within the City at a rate of 6.000 cents in the dollar (7.400 in 2007/2008).
- (b) A minimum rate payment of \$620.00 will apply (\$590 in 2007/2008).
- (c) A standard domestic Rubbish Service Charge will increase from \$180.00 to \$190.00 in 2008/2009 (which is still one of the lowest of all metropolitan local governments).
- (d) Interest rate charges of 5.5% per annum and an administration fee of \$5.00 per installment will apply for payment of rates and service charges by installment in accordance with the provisions of Section 6.45 (3) & (4) of the Local Government Act and Regulation 67 of the Local Government Financial Management Regulations.
- (e) Late payment interest of 11% per annum will be applied to rates, service charges and other monies (including third party debts for ESL) outstanding beyond due dates in accordance with Section 6:51(1) of the Local Government Act and Regulation 67 of the Local Government Financial Management Regulations.
- (f) The Emergency Services Levy will be included on rates notices at the gazetted rate.
- (g) Revenue and Expenditure disclosed in the Operating and Capital Budgets are net of Goods and Services (GST) - with the exception of the Collier Park Village which is treated as 'Input Taxed' for GST purposes in accordance with an Australian Tax Office Private Tax Ruling.

3. BUDGET STRUCTURE

In addition to the Statutory Budget format, the 2008/2009 Budget has also been presented in the management format of the monthly Management Accounts as submitted to Council. The Management Budgets allow an assessment of each Department's revenue and expenditure and can be used to provide a consolidated view of the operations under Council's control.

The Management Operating Budgets include:-

- Operating revenue and expenditure
- Payroll and associated costs
- Depreciation
- Interest and related costs

Aggregating the Management Budgets establishes the operating surplus. Adding back depreciation and other non-cash items gives the cash-flow to fund the Capital Expenditure Program.

The Management Budgets do not include the following items (separately disclosed elsewhere)

- Capital expenditure
- Loan repayments
- Transfers to or from Reserves
- The Accrual Opening Position carried forward from the previous year.

4. BUDGET OVERVIEW

4.1 ANNUAL RATES

The City is proposing to decrease the 'Rate in the Dollar' that it applies to the Gross Rental Value of each property from 7.400 cents in 2007/2008 to 6.000 cents in the dollar in 2008/2009. This year is the triennial revaluation year during which the Valuer General's Office supplies revised Gross Rental Valuations (GRV) for every property in the City (representing their estimate of the annual rental return on each property). These GRVs are used to determine the rates applicable to each property. Using the City's rate in the dollar and rating model, a significant number of our ratepayers will receive either a small decrease in rates or an increase of no more than the WALGA Local Govt Cost Index increase of 5%. This increase is consistent with that suggested in the City's Strategic Financial Plan. Older Australians will continue to enjoy the benefits of the Rates Rebates and Deferrals scheme which entitles them to specific concessions on their local government rates.

The standard domestic rubbish service charge increases from \$180.00 to \$190.00 after having been maintained at an artificially low level for several years. The levy is still one of the lowest of all metropolitan local governments - but now reflects a full cost recovery approach for this service.

The Emergency Services Levy (a State Government charge) will again appear on all Rate Notices. Monies collected in relation to this charge will be forwarded directly to the Fire & Emergency Services Authority (FESA). This fee has again been increased by the State Government and no money from this charge is retained by the City.

Rates & Rubbish Charge - Average GRV (GRV of \$17,397)	1,233.79	1,169.60
Percentage of Minimum Rated Properties	20.1%	19.8%

4.2 BORROWINGS / REPAYMENT OF EXISTING LOANS

With access to special treasury borrowing rates, the City has recognised that it is both prudent and advantageous to borrow funds for significant capital projects and to ‘lock in’ interest rates at these low levels to give the City immunity from interest rate rises in the future. The City’s current borrowing program, which was incorporated as an integrated funding strategy within the City’s Strategic Financial Plan, will now be completed in 2008/2009 in accordance with Section 6.20 of the Local Government Act and the City’s Debt Policy P604.

Loan repayments for self supporting loans to the community groups listed below are recovered from these groups immediately after each repayment is made. This means that there is no impost on the ratepayers of the City for servicing these loans.

- South Perth Tennis Club (Inc)
- Trinity Aquinas Football Club (Inc)
- South Perth Rugby Club (Inc)
- Wesley Hockey Club
- Manning Tennis Club
- South Perth Bowling Club
- Old Mill Theatre

The City currently has outstanding fixed rate loan borrowings for its own purposes of around \$2.39M. These loans are being repaid by regular installments over the next 7 years. It is proposed to borrow a further \$3.0M in 2008/2009 on fixed interest rates over 10 years to complete the current borrowing program.

4.3 DEPRECIATION

In accordance with Australian Accounting Standard 27 - Accounting for Local Government (AAS 27), depreciation is calculated on the value of non-current assets and is recognised an expense in the Operating Statement. The calculation and recording of depreciation as an expense in the accounts gives an approximate indication of the rate at which infrastructure and other assets deteriorate over time. It also suggests a level of spending required to maintain the asset base of Council in good condition. The useful lives of assets used in calculating depreciation are approximations only and are used as a guide. Individual assets may deteriorate at a slower rate due to ongoing maintenance or variations in usage patterns.

The City aims to maintain its expenditure on the maintenance of infrastructure assets at a level in excess of the rate of asset deterioration as indicated by the calculated depreciation. Thus, the City’s, inventory of Infrastructure Assets is enhanced - to leave a legacy for future residents of the City. Depreciation is treated as a non cash item in developing the budget which means that it is not required to be funded directly by ratepayers . Hence it is “added back” when determining the level of funding required to be levied from Rates. This calculation is disclosed in the statutory Rate Setting Statement.

4.4 SALARY & WAGES INFORMATION

Salary and wage information is provided for all approved staff positions in the 2008/2009 Budget. The Annual Budget includes 217.6 FTE approved positions (213.9 FTE in 2007/2008). Staffing levels in the 2008/2009 budget reflect a more appropriate mix of resources - with the major changes in the administration being the removal of a director position, the transfer of the sustainability function to the CEO Office, transfer of the Payroll Officer position from Human Resources to the Finance area, removal of an unfilled 0.5 FTE assistant position in the administration area and inclusion of an additional 0.6 FTE in Community Culture & Recreation as a result of a re-structure.

The mix between full and part time staff in Customer Focus Team and Libraries has been adjusted to provide better roster coverage - but with little impact on the overall headcount. The FTE staff headcount in the Ranger team has been reinstated by 1.0 FTE following the return of a ranger from maternity leave in 2007/2008.

Infrastructure Services has undergone a re-structure to provide better service levels and more effective supervision and has resulted in an increase of 2.0FTE (field staff) relative the 2007/2008 budgeted numbers

Overall, the total payroll budget has increased by 4.50% on the previous year including the new positions, the anticipated EBA increases and other relevant loadings and award increases. A number of structural changes have occurred since the previous budget and this document now reflects the revised 4 directorate structure and re-allocation of certain positions.

The 2008/2009 payroll budget is disclosed by salary component and aggregated by directorate as presented in the table below.

Directorate	Salaries	Super	Long Service	Total \$
Chief Executive's Office	1,070,647	135,806	25,839	1,232,292

	\$11,761,660	\$1,380,711	\$279,695	\$13,422,066

4.5 RESERVE FUNDING

Net transfers from Reserves in 2008/2009 are \$1,356,097 (including interest of \$1,353,199 allocated back amongst the Reserves in proportion to the average balances held during the year). Specific details of transfers to and from Reserves - and the purposes of those reserves are disclosed in the Notes to the Statutory Budget at Note 14.

4.6 CAPITAL WORKS CARRIED FORWARD FROM 2007/2008 INTO 2008/2009

Capital works totaling \$2.90 Million have been recommended as carried forward into the 2008/2009 year. Factors that can lead to projects being carried forward include awaiting approvals from other statutory bodies, contractors not being available when required, scheduling works at a time when they will cause less disruption in the community and allowing more opportunity for public consultation in the process. Specific items relating to the 2007/2008 Capital Program now carried forward into 2008/2009 are detailed in the schedule attached to the Capital Expenditure Budget.

A concerted effort will also be made to complete the bulk of the outstanding infrastructure projects by the end of the first quarter of the 2008/2009 year.

4.7 MAJOR CAPITAL EXPENDITURE PROJECTS

Funds totaling \$9.88 Million have been set aside by Council for Capital Works in the 2008/2009 Budget - plus an allocation of \$5.5M to complete the Underground Power Project which is being recouped directly from property owners in the affected areas. These amounts exclude carry forward works, transfers to cash backed reserves and the shadow capital program. The allocation of funds to the individual projects is detailed in the Capital Expenditure section of the Budget document.

4.8 ALLOCATION OF CORPORATE COSTS

The costs of providing corporate support such as financial management, accounts payable, payroll, human resources management, occupational health and safety, records management, technology resources and information technology support are allocated across service areas within the organisation. Council Members receive an allocation of the costs of officers' time in preparing and presenting reports to meetings and briefings, minute taking, technology, secretarial and administrative support.

The overall impact of these internal corporate allocations on the budget is nil.

5 LOOKING TO THE FUTURE

The 2008/2009 Budget builds upon the City's sound, sustainable financial foundations and its well articulated strategic direction - complemented by the input of Council Members, our community and the staff of the City of South Perth. This provides an excellent foundation on which to build a community which is financially, socially and environmentally sustainable. The responsible input of key stakeholders in the community, guided by the City's well established planning framework and financial capacity will enable the South Perth community to continue to enjoy the enhanced services and public facilities which this budget delivers.

The principles of business excellence will be used to guide the work of the administration and Council in the 2008/2009 year. Continuous improvement, community involvement and a genuine commitment to deliver customer focused service to the community will support the model which the City will use to deliver the programs and initiatives contained in this budget.

We are proud to present the 2008/2009 Annual Budget of the City of South Perth.

Credit Standby Arrangements

Council has determined that it does not anticipate any specific requirement for an on-going short term credit arrangement during the budget period. Council's bankers monitor the daily operational cash position against the level of short term term deposits held with the institution and will provide a temporary financing accommodation on a daily basis if the Muni Fund goes into overdraft. Any overdraft balance shown in the year end reconciliation of cash is only the result of timing differences due to unrepresented cheques.

1. SIGNIFICANT ACCOUNTING POLICIES

The significant policies which have been adopted in the preparation of this Annual Budget are:

(a) **Basis of Accounting**

The Annual Budget has been drawn up in accordance with the applicable Australian Accounting Standards and disclosure requirements of the Local Government Act (1995) and the Local Government Financial Management Regulations (1996). It has been prepared on the accrual basis under the convention of historical cost accounting and does not take into account changes in money values. The accounting policies are consistently applied unless otherwise stated.

(b) **The Local Government Reporting Entity**

All Funds through which the Council controls resources to carry on its functions have been included in the statements forming part of this Annual Budget. In the process of reporting on the local government as a single entity, all transactions and transfers between funds have been eliminated.

(c) **Infrastructure and Property, Plant & Equipment**

(i) **Cost and Valuation**

Infrastructure, property, plant, furniture and equipment are carried at cost or an independent valuation. Any gain or loss on disposal of assets is determined as the difference between the carrying amount of the asset at the time of disposal and the proceeds from disposal and is included in the operating results in the year of disposal. Any surplus arising as a consequence of revaluation is credited directly to the asset revaluation reserve and excluded from the operating statement.

(ii) **Depreciation**

Infrastructure assets and items of property, plant, furniture, equipment and buildings (but excluding freehold land) are depreciated over their estimated useful lives as follows:

• Buildings	40 years upwards - as assessed
• Plant & Equipment	10 years
• Furniture & Fittings	10 years
• Computer Equipment	5 years
• Mobile Plant	5 years
• Infrastructure - Roads	20 years
• Infrastructure - Drains	80 years
• Infrastructure - Footpaths	50 years
• Infrastructure - Parks Equipment	20 years
• Infrastructure - Street Furniture	20 years

Assets are depreciated from the date of acquisition or, in respect of internally constructed assets, from the time an asset is completed and held ready for use.

(d) **Rates, Grants, Donations and Other Contributions**

Rates, grants, donations and other contributions are recognised as revenues when the Council obtains control over the assets comprising the contributions. Control over assets acquired from rates is obtained at the commencement of the rating year when rates are levied. Control over granted assets is normally obtained upon their receipt or upon prior notification that a grant has been secured. Contributions over which the Council has control but which had not been received at reporting date are accrued and recognised as receivable.

(e) **Investments**

All investments have been valued at cost and interest earned on those investments is recognised by accrual at reporting date. Interest on Reserve Funds is then distributed to the Reserves proportionally based upon the average balances of each Reserve.

(f) **Employee Entitlements**

Employee entitlements accumulated as a result of employees rendering services up to the reporting date are accrued in the Budget. These benefits include wages and salaries, annual leave, and long service leave.

Liabilities arising in respect of wages and salaries, annual leave and any other employee entitlements expected to be settled within twelve months of the reporting date are measured at their nominal amounts. All other employee entitlement liabilities are measured at the present value of the estimated future cash outflows to be made in respect of services provided by employees up to the reporting date. In determining the present value of future cash outflows, the interest rates attached to government guaranteed securities which have terms to maturity approximating the terms of the related liability are used.

(g) **Trust Funds**

The Council is required under the Local Government Act to maintain a separate and distinct Trust Fund to account for all monies held by way of deposit or in trust for any person, all monies held on behalf of the Government for specific purposes and all monies and property held in trust for any charitable or public purpose. Where the Council performs only a custodial role in respect of these monies, and because the monies cannot be used for Council purposes, they are excluded from the Annual Budget.

(h) **Inventories - Stores and Materials**

Inventories held at reporting date have been valued at the lower of cost or net realisable value on a weighed average cost basis.

(i) **Leases**

The Council's rights and obligations under finance leases, which are leases that effectively transfer to the Council substantially all of the risks and benefits incidental to ownership of the leased items, are to be initially recognised as assets and liabilities equal in amount to the present value of the minimum lease payments. The assets are disclosed as plant and equipment under lease, and are to be amortised to expense over the period during which the local government is expected to benefit from the use of the leased assets. Minimum lease payments are to be allocated between interest expense and reduction of the lease liability, according to the interest rate implicit in the lease.

Lease liabilities are to be allocated between current and non-current components. The principal component of lease payments due on or before the end of the succeeding year is disclosed as a current liability and the remainder of lease liability is disclosed as a non-current liability.

In respect of operating leases, where the lessor effectively retains substantially all of the risks and benefits incidental to ownership of the leased items, lease payments are charged to expense over the lease term and hence no recognition of assets and liabilities is necessary.

(j) **Leaseholder Liability**

This represents Council's obligation to repay the unit lease purchase price paid by residents of the Collier Park Village and Collier Park Hostel. This amount is due when individual lease holders relinquish their leases and is predetermined in accordance with the individual leases.

(k) **Infrastructure Assets**

Infrastructure assets have been valued on the basis of engineering estimates for current replacement and, having consideration for the age of such assets and the estimated remaining useful life of such assets, accumulated depreciation to date has been deducted from the current estimated replacement cost.

2. **CHANGES IN ACCOUNTING POLICY**

Accounting policies applied are consistent with those applied in the previous year and comply with applicable Accounting Standards and other legislative pronouncements. They also include full cost accounting allocations using ABC principles as required under current legislative requirements. These allocations reflect an internal distribution of costs to attribute such corporate costs directly to those areas causing their incurrence. Therefore they do not have any impact upon the overall operating result of the Council.

3. OBJECTIVE AND FUNCTIONS (PROGRAMS) OF COUNCIL

Vision

The City of South Perth will be Perth's most liveable community - celebrating our history and riverside location and creating the opportunities of the future.

Mission Statement

To enhance the quality of life and prosperity of our community.

Statement of Objective

The City of South Perth is dedicated to providing high quality services to the community through the various service-orientated programs it delivers :

The activities relating to these programs reported on the Operating Statement are as follows:

- **GOVERNANCE**
Reflects the statutory element of local government operations including Council Member support, community consultation and involvement, statutory reporting, compliance and accountability.
- **LAW, ORDER AND PUBLIC SAFETY**
Includes animal control, parking management and the Safer Cities program. This activity also includes fire prevention and the City's payment to FESA for emergency services in relation to its own properties only.
- **EDUCATION**
Operation and maintenance of five pre-school facilities including operating costs for public utilities, building maintenance and upkeep of grounds.
- **HEALTH**
Includes food inspection services, noise control, pest control and environmental health administration. The operation and maintenance of the buildings and grounds of various infant health centres within the City is also included in this program.
- **WELFARE**
The operation and maintenance of the buildings and grounds of senior citizens centres located at Manning and South Perth represent the major components of this program. Also included are other voluntary services.
- **HOUSING**
The largest single component of the Housing program is the operation and maintenance of the Collier Park Village and Hostel complex. This includes all operating costs for both facilities and the revenue streams arising from resident's fees and government subsidies in relation to both hostel and the village units. Also included in the Housing program is the revenue and expenditure relating to Council's housing portfolio.
- **COMMUNITY AMENITIES**
This program includes household rubbish collection services and recycling collections plus the operation of a Waste Transfer Station. The administration of Town Planning Schemes and associated regulatory activities are other major components of the Community Amenities Program.
- **RECREATION AND CULTURE**
This program includes the operation and maintenance of halls and their grounds plus the operation of two libraries and a cultural centre. A major component of the revenue stream for this program is the operation of the 27 hole Collier Park Golf Course. Council's acclaimed regional festival 'City of South Perth Fiesta' forms part of the Recreation & Culture program. The maintenance and upkeep of all sporting and passive reserves and various sporting pavilions and public facilities are included as are grants and donations to community cultural organisations.

- **TRANSPORT**
The maintenance and rehabilitation of roads, drainage works, footpaths and parking facilities are major components of the Transport program. Streetscapes and verge maintenance are also included as is the maintenance of traffic devices and traffic signs and expenses relating to street lighting.
- **ECONOMIC SERVICES**
Includes building control and swimming pool inspections plus the operation of the City's plant nursery.
- **OTHER PROPERTY AND SERVICES**
Includes public works overheads and operation of the City's vehicle fleet.

(b) **Interest Revenues**

The City recognises the bulk of its revenue at the commencement of the year when rates are levied. However, expenditure patterns tend to be phased more evenly throughout the year. As some funds collected will necessarily not be required until later in the year, the City invests funds awaiting dispensation in short term financial instruments (including bank bills and term deposits).

Interest is recognised when earned, rather than when received. Anticipated interest earnings for the 2007/2008 year are shown below:

	Budget 2008	Actual 2008	Budget 2009
Investment Earnings – Municipal & Trust	1,108,000	1,143,885	1,564,500

6. PURPOSE OF RESERVES

- **PLANT REPLACEMENT RESERVE**
Used to fund the balance of the purchase price of Plant and Equipment associated with City works after trade-in and allowances. The reserve is funded by annual allocations from the Municipal Fund.
- **FUTURE MUNICIPAL WORKS RESERVE**
Established to accumulate funds for significant future municipal works. The reserve is funded in selected years by discretionary allocations from the Municipal Fund to quarantine funding for future major capital projects.
- **COLLIER PARK RESIDENTS' LOAN OFFSET RESERVE**
Established to partially cash-back the loan liability due to residents departing the village complex. The reserve is funded by the premium representing the difference between the sale price of the units in the village to the ingoing resident and the amount of refund to the departing resident. Adequate funds are maintained in the reserve to meet all short term draw-downs by departing residents on the reserve.
- **COLLIER PARK HOSTEL CAPITAL WORKS RESERVE**
Established to finance the ongoing capital works program and operational deficit associated with the Hostel. Funded from the annual operating surplus before depreciation of the Hostel.
- **COLLIER PARK HOSTEL LOAN OFFSET RESERVE**
Established to finance the loan liability relating to the refund of Accommodation Bonds to departing hostel residents. The reserve is funded by the difference between ingoing Accommodation Bonds and payments to departing residents. This liability is fully funded at present.
- **COLLIER PARK GOLF COURSE RESERVE**
Established to quarantine funds relating to the Collier Park Golf Course, to purchase plant & equipment, reticulation equipment and to repay debt (if any) associated with the Golf Course. This reserve is funded by an amount equal to 33% of the annual operating surplus excluding depreciation. The remaining 67% of the operating result is returned to the City's Municipal Fund as a dividend in accordance with Council Policy.

- **WASTE MANAGEMENT RESERVE**
Established to provide for investment in new waste management initiatives. Funds move into or out of the reserve by annual allocation equal to the operating surplus (deficit) from the waste budget.
- **RETICULATION AND PUMP RESERVE**
Established to provide funds for the replacement of reticulation and pumps at various parks and gardens under the control of Council. It is funded from annual allocations from the Municipal Fund.
- **INFORMATION TECHNOLOGY RESERVE**
Established to finance the acquisition and enhancement of information technology across the City's administration. The City's Information Technology capital program each year receives funding from this reserve. Ongoing appropriations from the Municipal Fund are provided as and when needed.
- **INSURANCE RISK RESERVE**
This reserve was reactivated in 2001/2002 as Council has moved to a 'burning cost' method of premium for workers compensation. This reserve would support the difference between the "deposit" premium and any adjusted premium in the event of a significant uninsured claim.
- **FOOTPATH RESERVE**
Established to finance the replacement of existing slab paths with in-situ concrete sections. Funded by annual allocations from the Municipal Fund only in years when the full Municipal Fund allocation is not deployed directly to the path replacement program.
- **UNDERGROUND POWER RESERVE**
Established to accumulate funding to support the City's contribution to the undergrounding of existing overhead electrical cables within specified precincts in the City. Initially funded by an allocation from the Municipal Fund (which is to be ultimately returned to the Municipal Fund), the reserve now accumulates collections from the Underground Power Projects in the Como East precinct. In future it may accumulate cash collections and progress payments to the contractor as new stages progress.
- **PARKING RESERVE**
Established to quarantine funds contributed by developers in lieu of providing parking facilities for their developments. Council will subsequently use these monies to provide additional parking facilities in the district within the vicinity of these developments as opportunities arise.
- **COLLIER PARK VILLAGE RESERVE**
This reserve accumulates the lease premium, refurbishment levy paid by ingoing residents of the retirement village and the operating result (adjusted for depreciation) for the Village each year. Capital purchases and refurbishment costs associated with this complex are funded from this reserve. In the event of an operating shortfall, the reserve is expected to subsidise the difference so that the facility's operations do not impose a financial burden upon the City's ratepayers.
- **RIVER WALL RESERVE**
Established to quarantine monies to be used to attract matching funds from state government with a view towards sharing financial responsibility for maintaining the river walls.
- **RAILWAY STATION PRECINCT RESERVE**
Established to provide funding for anticipated future works on the precincts around the South Perth and Canning Bridge Railway Stations. These works will relate primarily to streetscape enhancements and parking management initiatives.
- **FUTURE BUILDING WORKS RESERVE**
Established to provide funding for planned future major building projects. Funding from the Municipal Fund may be provided for identified projects in particular years to spread the burden of major building infrastructure funding more equitably.

- **FUTURE TRANSPORT PROJECTS RESERVE**
Established to provide funding for future transport related projects or for road projects that are temporarily suspended whilst awaiting contractor availability or external approvals.
- **FUTURE STREETSCAPES WORKS RESERVE**
Established to provide funding for planned (future) major streetscape projects. Funding from the Municipal Fund may be provided for identified projects in particular years.
- **FUTURE PARKS WORKS RESERVE**
Established to provide funding for future major park development works. Funding may be allocated from the Municipal Fund for this purpose in particular years.

Reserves associated with the Collier Park Village, Collier Park Hostel and Collier Park Golf Course are quarantined reserves and are used to isolate funds associated with these facilities - which are run as discrete business entities. The Waste Management Reserve is also quarantined to allow waste management programs to be run as a separate area of operations. All other reserves are funded and expended on a discretionary basis as determined appropriate based on the City's long term funding projections.

7. MAJOR RESERVE TRANSFERS

The reasons for major transfers of funds into Reserves and also back to the Municipal Fund from Reserves as shown in the detailed Schedule of Movement in Reserves are :

Transfers to Municipal Fund

Plant Replacement Reserve	Partial contribution to purchase of new machinery	500,000
Collier Park Village Loan Offset	Refunds to departing residents	1,500,000
Collier Park Hostel Capital Works	Room refurbishments and operating deficit subsidy	198,657
Collier Park Hostel Loan Offset	Refunds to departing residents	420,000
Collier Park Golf Course Reserve	Capital expenditure & dividend to Muni Fund	644,734
Waste Management Reserve	Replace street bins and 240 litre garbage bins	118,989
Collier Park Village Reserve	Capital Expenditure and reimburse Operating Loss	394,846
Future Muni Works Reserve	Funding support for capital initiatives	150,000
Railway Station Precincts Reserve	Commencement of streetscape /parking works	150,000

Transfers to Reserves from Municipal Fund

Plant Replacement Reserve	Annual contribution	600,000
Collier Park Village Loan Offset	Incoming refundable amounts from new residents	1,700,000
Collier Park Hostel Loan Offset	Accommodation Bonds lodged by new residents	600,000
Collier Park Golf Course	Operating Result for Year	554,124
Collier Park Village Reserve	Ingoing premiums from new residents	375,000
River Wall Reserve	Contribution towards future wall replacements	100,000
Railway Station Precincts Reserve	Future streetscape and parking management works	100,000
Future Building Works Reserve	Allocation towards major future building projects	100,000
Future Transport Works Reserve	Allocation towards future transport projects	100,000
Future Streetscape Works Reserve	Seed funding allocation for future streetscape projects	50,000
Future Parks Works Reserve	Seed funding allocation for future major parks projects	50,000

The City has a custodial responsibility for certain refundable monies associated with the Collier Park Hostel (Accommodation Bonds) and the Collier Park Village (Refundable Loans). These amounts do not result in the recognition of a revenue upon their receipt and are transferred to the Collier Park Hostel Residents Loan Offset Reserve & Collier Park Village Residents Loan Offset Reserve respectively. The monies are held by the City in these Reserves until the residents depart from the Village or Hostel and the monies are then refunded from the relevant Reserve. The movement in these Reserves resulting from these transactions is disclosed in the Rate Setting Statement as Transfers to Non City Reserves.

8. CONTRIBUTIONS / GRANTS FOR DEVELOPMENT OF ASSETS

Grants and contributions for the development of assets shown on the Operating Statement are comprised of the following (other grants are for operational purposes rather than asset acquisition) :

Grant for Road Construction	712,139
Grants for Building Works	1,500,000
	\$2,212,139

9. TRADING UNDERTAKINGS AND MAJOR LAND TRANSACTIONS

The Local Government Financial Management Regulations 27(i) & (k) require the disclosure of trading undertakings and major land transactions in which Council is involved. The City does not expect to be involved in any major trading or land undertakings during this budget period.

10. BORROWINGS

- (a) The City borrowed \$1.50M in June 2004 at 6.06% fixed interest repayable quarterly over a 10 year term.
- (b) \$1.50M was borrowed in June 2005 at 5.48% fixed interest repayable monthly over a 10 year term.
- (c) These borrowings were part of the City's publicly stated five year strategic funding package.
- (d) No overdrawing occurred on the current account and no incomplete borrowings were carried forward.
- (e) Municipal borrowings of \$3.00M are proposed to be undertaken in 2008/2009 to support the deferred payment option for Underground Power in the Como East area.
- (f) All borrowings are been undertaken in accordance with the provisions of Section 6.20 of the Local Government Act and Policy P604 - Use of Debt Funding.

11 (a) OPENING POSITION

In order to ensure the prompt availability of operating funds at the commencement of the financial year (and to avoid the associated overdraft costs) Council prepares its Annual Budget on a timeframe which facilitates adoption by early July each year. This necessarily involves the use of estimated figures for the budget opening position and (projected) year end actual figures - as these are not finalised until after the Annual Budget is adopted.

The estimated opening position used in the derivation of this financial year's Budget was calculated in accordance with the requirements of the Local Government Financial Management Regulations (1996). The opening position reflects the projected Net Current Asset position of the Council as at 1 July 2008 after allowing for year end adjustments and therefore represents the current accrual position rather than a cash position.

Balances used in the calculation of the opening position (Restricted Assets excluded) are as follows:

Current Assets	Balance
Cash on Hand	244,223
Investments (including Restricted Cash)	27,010,837
Debtors - Rates (excluding Deferred amounts)	249,611
Debtors - Others	2,420,654

Restricted Cash	(25,842,487)
Carry Forward Works	(2,905,000)
Opening Position - Net of Carry Forward Works	\$407,970

11 (b) CLOSING POSITION

The projected closing position (as defined in the Local Government Financial Management Regulations & Guidance Note) at the end of the budget period is expected to be:

Current Assets	Balance
Cash on Hand	490,038
Investments (including Restricted Cash)	26,225,837
Debtors - Rates (excluding Deferred amounts)	274,611
Debtors - Others	1,190,654
Inventory	62,801
Prepayments & Accrued Revenue	407,293
Total Current Assets	\$28,651,234

Current Liabilities	Balance
Bank Overdraft	0
Accounts Payable	(1,638,143)
Accrued Wages	(0)
Interest Bearing Liabilities	(635,000)
Income in Advance	(32,595)
Provisions	(1,737,534)
Total Current Liabilities	\$(4,043,272)

Closing Position - Net Current Assets	\$24,607,962
Add back	
Interest Bearing Liabilities	635,000
Provisions - Employee Entitlements	2,218,810
Less	
Restricted Cash	(27,298,586)
Closing Position - Net Current Assets	\$163,186

The final actual 2007/2008 Closing Position (which becomes the Opening Position for this Budget) is determined after the close-off of the 2007/2008 year end financial accounts. At that time any difference between the estimated Closing Position (used to facilitate the adoption of the Budget in early July) and the final (audited) position is determined and brought to account through the Q1 Budget Review in October.

12. DETAILS OF ASSET DISPOSALS

During the budget period it is planned that Council will dispose of certain non current assets either by trade-in or outright sale. The items will be replaced on a 'like for like' basis. Anticipated gains (losses) on disposal are:

13. RATES INFORMATION

(a) Rate in the Dollar

A rate of 6.000 cents in the dollar (7.400 in 2007/2008) will be applied to the Gross Rental Value (GRV) of all rateable properties in the municipality which are not subject to the minimum rate. This rate will be applied to both Residential and Commercial properties within the district.

(b) Minimum Rate

Council will impose a minimum rate of \$620.00 per annum for the 2008/2009 budget year (\$590.00 in 2007/2008). This amount has been determined to be an equitable minimum rate to reflect the basic cost of servicing lots within the municipality.

(c) Instalment Options

In accordance with the requirements of the Local Government Act (1995) and the Local Government Financial Management Regulations (1996), Council offers ratepayers a choice of payment of rates by either one, two or four instalments. To offset the cost of offering the instalment payment option, the Local Government Act (1995) allows Council to charge a \$5.00 administration fee on the second, third and fourth instalments plus interest at the prescribed rate of 5.5% per annum on instalment payments.

(d) Instalment Due Dates

The due dates for each payment under the instalment options for the 2008/2009 rating year are:

1 st Instalment	20 August 2008
2 nd Instalment	06 November 2008
3 rd Instalment	08 January 2009
4 th Instalment	12 March 2009

To qualify for the instalment option, ratepayers must pay any arrears and the full amount of the first instalment by the due date for instalment number 1.

(e) Penalty Interest

An interest charge of 11% per annum will be applied to all outstanding rates (excluding deferrals by qualifying pensioners) in accordance with the provisions of the Local Government Act. This is consistent with the rate of interest charged by FESA on outstanding Emergency Services Levy (ESL) payments.

(f) Concessions

In accordance with the provisions of the Rates & Charges (Rebates & Deferrals) Act, concessions will be offered to eligible pensioners and seniors to allow them to either defer their rates or receive a percentage rebate of their rates provided they register within the specified period and pay the balance of rates and charges within the year in which they are assessed. Eligibility for a concession is determined by meeting the requirements specified in the Rates & Charges (Rebates & Deferrals) Act.

(g) Incentive Scheme

An incentive scheme to encourage the early payment of rates will again operate in the 2008/2009 year. To be eligible, a ratepayer must pay their current year's rates (plus any outstanding arrears) in full by the due date for the first instalment (20 August 2008). Registered pensioners are eligible to enter upon payment of their rates (less the amount of the Pensioner Rebate). Arrears must be cleared, but amounts legitimately deferred under the Pension Deferrals scheme need not be paid to be eligible for the prize draw. All prizes offered in the Rates Early Payment Incentive Scheme are donated by sponsors and no cost is incurred by the City in providing those prizes.

(h) Rates Charges & Interest

Anticipated yields from administration fees and interest charges relating to rates for the 2008/2009 budget year are:

	2008	2009
Administration Fees - Rates	60,000	60,000
Interest on Rates (Pre-Interest on Instalments & Penalty Interest)	158,000	155,000
	\$220,008	\$217,009

(i) Emergency Services Levy

During the 2008/2009 year the City will again be required to perform the role of third party collection agent for the Emergency Services Levy (ESL) for properties within the district. The ESL is a state government levy used to fund the operations of the career and volunteer fire brigades.

All monies collected by the City for the ESL are forwarded directly to the Fire and Emergency Services Authority (FESA). As the monies are collected on behalf of a third party and are remitted to FESA on a quarterly basis, the ESL revenues are treated as non controlled items - and are excluded from the City's Statement of Financial Position. Following the City's adoption of the FESA Option B payment model, only the outstanding debts for ESL owed to the City at year end are recorded in the City's Balance Sheet

(j) Underground Power

Provision has been made in the Budget for the anticipated cash flow effects of a Service Charge that was separately levied on properties within the Como East (Stage 3) Underground Power Project area in May 2008. The charge has been levied only against the properties within the affected area and only the cash flow impacts of the deferred payment (instalment) option are relevant to the 2008/2009 year.

Fee Description	Conditions	Fee Basis	GST	Fees \$
FACILITY HIRE - BUILT FACILITIES				
<i>The Fees & Charges Schedule is based on a User Pays principle whilst recognising community service obligations. Accordingly, the charges for use of City facilities (halls, recreation centres and sportsgrounds) prioritise City support for incorporated not for profit organisations (NFP Groups)</i>				
<i>The following definitions are important to - and are strictly applied in, establishing charges for the use of City facilities:</i>				
Incorporated NFP Groups	- Activities undertaken for the purpose of furthering the aims of incorporated not for profit (NFP) community groups.			
Social Activities	- Activities undertaken by unincorporated groups or individuals including social functions, receptions, cabarets, luncheons, cultural meetings and other gatherings (excluding social activities organised by incorporated not for profit groups for the purpose of furthering the aims of those groups).			
For Profit Activities	- Classes / courses run by commercial operators such as pilates, dance, martial arts, academic training or hobby courses for which tuition fees are paid or at which commercial sale, auction or promotional activities occur.			
Day Rates	- Apply to the use of City operated facilities between 6.00 AM and 6.00 PM			
Evening Rates	- Apply to the use of City operated facilities between 6.00 PM and 1.00AM *			
	* <i>Use of City facilities outside these hours is not permitted</i>			
Late Notice Bookings	- All bookings for City facilities should be made within the set guidelines. If bookings are received by the City outside these parameters, a late booking fee of \$40.00 will apply.			
Bonds	- A refundable Hall Bond will be required for all facilities as detailed in the charges for each facility.			
Cleaning & Storage Fees	- Cleaning and or storage fees may apply to particular facilities – please check the individual facility schedules.			
Cancellation Fees	- A cancellation fee may be applied for cancelling a booking on limited notice.			
Key Bonds	- A refundable Key Bond may be applied to ensure the return of keys to each facility after use.			
	* <i>Hire fees for Main & Lesser Halls relate only to the period prior to the refurbishment of the facilities in late 2008.</i>

FACILITY HIRE - RESERVES				
<i>The Fees & Charges Schedule is based on a User Pays principle whilst recognising community service obligations. Accordingly, the charges for use of City reserves and sportsgrounds prioritise City support for incorporated not for profit organisations (NFP Groups and Junior sporting activity</i>				
The City maintains Passive Reserves for use by the wider community including social and casual usage by community based & other organisations. Passive reserves include Sir James Mitchell Park, Neil McDougall Park, David Vincent Park, Bodkin Park, Bradshaw / Conochie Reserve, Canavan Reserve, Clydesdale Park, Sandon Park, Ryrie Reserve, Olive's Reserve, Moresby Reserve, Coolidge Reserve, Mill Point Reserve, Windsor Park , McGrath Reserve, Hensman Park and George Burnett Circuit.				
The City also maintains Active Reserves for use by the wider community and for organised sporting and recreational activity by community based sporting groups, schools and colleges based in the City of South Perth (other charges may still apply).				
The City does not charge hire fees for casual use of Passive Reserves by Junior sporting clubs based in the City of South Perth or to primary or secondary schools or colleges based in the City of South Perth.				
The City does not charge hire fees for regular use of Active Reserves by Junior sporting clubs based in the City of South Perth or to primary schools based in the City of South Perth.				
Junior player fees are applicable to secondary schools and colleges based in the City of South Perth.				
Fees will be separately negotiated for Special Events (including commercial expos or not for profit events run independently or in partnership with the City where those events may have a significant impact on regular reserve users or the City of South Perth Community.				
<i>* No functions are allowed on any City reserves after 11PM</i>
