Manning Community,

I have been listening to our community and know you are concerned about:

- Community safety
- Safe footpaths and roads for pedestrians, cyclists and cars
- Recreation facilities
- Our environment and green spaces
- Effective use of limited finances
- Challenger Reserve upgrades

I will do all that I can to represent and advocate for the views of Manning ward in the Council Chamber.

I am a self-funded and independent candidate, not affiliated with any political party or single issue group. My decision making will be informed by evidence and based on merit.

My career is in child protection where I advocate and support the most vulnerable in our community. Outside of that, I am an active member of Como Secondary College School Board.

My wife and I live in the Manning ward and are raising our children here. This is my community and will represent you with integrity.
