

Additional Information

As your Councillor, I'll support the City's efforts to achieve its strategic objectives for the benefit of our entire community.

I'll adopt an accessible and consultative approach to achieve the best outcomes.

The City is working towards improved recreational and sporting facilities and as an experienced civil engineer, my skills will support the City make such facilities become a reality. Our community deserves an indoor multi-use sports facility at a suitable location.

I'll support local sporting and user groups as the Challenger Reserve Masterplan progresses through concept design and beyond.

Local residents must also be considered as new facilities are planned - I'll ensure this happens.

Groups using existing facilities have ongoing sustainability and growth needs which also require our support - our community flourishes with successful clubs.

I'll seek improved neighbourhood amenity by supporting local businesses, senior citizens and all residents so our whole community thrives.

Providing improved play areas for children of all ages will increase amenity and promote increased health and wellbeing.

Continuing community safety initiatives is important to our neighbourhoods. From mobile CCTV, to security rebates and public lighting upgrades - the promotion of community safety initiatives features in the City's advocacy priorities.

I'm passionate about preserving and enhancing our environment for future generations and our precious wildlife. Manning Ward is unique in terms of the diversity of public open space. From sporting ovals, to banksia woodland to the foreshore with extensive wetlands - there is no other Ward like it in our City. We have an opportunity via the City's strategies to provide increased greening where appropriate.

As an independent Councillor, I'll always act in the best interests of our community. Good governance must be at the forefront of decision making.

I hope to earn your Vote this election.
