

Additional Information

Council is for the community. As a Councillor, I'll aim to keep the City liveable, now and tomorrow.

Living in South Perth with my family for over a decade, I've been an active community volunteer - South Perth Primary P&C (Communications & Fundraising), Wesley P&F (Chair of Fundraising), founder of South Perth Tree Canopy Advocates and Voices of South Perth. I've introduced innovation and creativity in all those roles.

I'll work to be practical, transparent, and to follow proper process. I will listen and be open to ideas.

The character and strengths of our community - its people, places, and history - should be cherished and respected. Protecting what we have is better than trying to regain it. Preserving open space, green landscape and heritage is about value: property value, amenity, and the identity that makes our area a place people want to live, visit and invest in.

I'll keep the focus on our shared goals - safe suburbs, well-managed budgets, efficient services, and a future that's planned.

The community comes first - through thoughtful representation, open communication, and decisions that make sense.
