Como has been my home for over a decade and I care deeply for our City.

I'm a civil engineer (25yrs contract & project management) and a passionate advocate for our community's amenity.

Attending my first Council meeting in 2017, I speak regularly on infrastructure and governance issues. I will hit the ground running if elected, being approachable and responsive to your concerns. I offer real experience and genuine knowledge of Council workings.

You've shared your priorities:

Indoor sports courts, local club support and maintained play spaces.

More static CCTV and ANPR cameras, better footpath lighting in parks and continued Home Security rebates for greater community safety.

Improved parking for locals, maintained footpaths and local road networks.

Protection and enhancement of our limited public open space.

Transparent, financially responsible decisions and justifiable rates expenditure.

Having no political party or interest group memberships, I'm truly independent and will work for you.
