Policy Objectives
The City is committed to the conservation of energy as expressed in its Sustainability Strategy 2012-2015, and Strategic Plan 2013-2023.

To achieve this commitment and the objectives of the Sustainability Strategy, it is important to develop strategies to promote the efficient use of energy.

Policy Scope
This Policy will affect all employees, contractors, external people working with the City and the wider community in a bid to reduce energy consumption.

Policy Statement
The City will actively encourage and promote energy efficient practices in:
- building design and orientation;
- construction and demolition;
- disposal of building waste;
- lighting;
- heating and cooling;
- waste management;
- refrigeration;
- transport, and
- equipment and appliances
- the application of renewable energy

This will be achieved by the application of environmentally responsible purchasing practices, civic building audits, continuous development of useful guidelines, public education and suitable incentives to encourage public participation.

Legislation/ Local Law Requirements
Clean Energy legislation (where applicable) – Federal and State Government
