

Policy P202 Energy Conservation

Responsible Business Unit/s	Waste, Fleet & Facilities
Responsible Officer	Manager Waste, Fleet & Facilities
Affected Business Unit/s	All Business Units

Policy Objectives

The City is committed to the conservation of energy as expressed in its Sustainability Strategy 2012-2015 and Strategic Community Plan 2021-2031.

To achieve this commitment and the objectives of the Sustainability Strategy, it is important to develop strategies that promote the efficient use of energy.

Policy Scope

This policy will affect all employees, contractors, external people working with the City and the wider community in a bid to reduce energy consumption.

Policy Statement

The City will actively encourage and promote energy efficient practices in:

- Building design and orientation
- Construction and demolition
- Disposal of building waste
- Lighting
- Heating and cooling
- Waste management
- Refrigeration
- Sustainable transportation
- Equipment and appliances
- Clean energy infrastructure upgrades
- The application of renewable energy

This will be achieved through the application of environmentally responsible purchasing practices, building audits, the continuous development of useful guidelines, staff and public education and suitable incentives to encourage public participation.
