

PENINSULA SNAPSHOT.

31 October 2017

Season of Arts, Events & Culture >

Immerse yourself in the City's annual Arts, Events and Culture programme, running from **1 November 2017 until April 2018**. Permanent and temporary art installations, a selection of City and community hosted events, food trucks and free pop-up activities will be dotted throughout the City.

The City's annual summer concert is set to return to the South Perth foreshore on **Saturday 24 February 2018** with a brand new name.

South Perth Sounds (formerly the Fiesta Concert), a free community celebration will feature Perth Symphony Orchestra and the WAAPA Gospel Choir as they come together to perform *Faith & Freedom: the music of George Michael*.

To find out more about the Arts, Events & Culture programme visit the Discover section of the City's website.

Latest News Cultural Plan >

The City is developing its inaugural Cultural Plan to outline a vision, strategies and goals for cultural development from 2018-2022 and beyond.

Arts and culture play a significant role in the community, contributing to its vibrancy, social cohesion and cultural identity. The Cultural Plan will build upon the City's cultural strength, identify new options for cultural service delivery and celebrate the City's cultural heritage, public spaces and community identity. It will also include opportunities for community and economic development.

The City is seeking community input to help us shape the plan. Tell us what culture means to you at yoursay.southperth.wa.gov.au.

Strategic Community Plan released >

The City of South Perth has officially launched its new Strategic Community Plan 2017-2027, a guiding document for the City and community over the next 10 years.

The City will use the Plan to: define clear priorities, process, long and short-term plans; prioritise budget and resource allocations; direct land use, infrastructure, services and asset management, operations and planning; direct workforce planning and inform other key strategies and plans.

To view the Plan or a summary of the Plan visit the City's website.

Aquatic vegetation >

The City's Environmental Management team regularly monitor the City's lakes and waterbodies for the presence of aquatic weeds. Aquatic vegetation growth severity and frequency are mitigated by controlling the nutrient supply to the waterbody. Everyone can work toward reducing excess nutrients and pollution from entering waterbodies by:

- Picking up animal droppings
- Not feeding native wildlife
- Correctly disposing of unwanted garden waste
- Washing vehicles on the lawn and using phosphorus free detergents
- Using fertilisers in moderation and following the instructions carefully.

To find out more visit the Environment page of the City's website.
