7.4.2 ADOPTION OF THE ANNUAL BUDGET 202	)/21	
---	------	--

Attachment (a): Draft Annual Budget 2020/21

3

A CITY OF ACTIVE PLACES AND BEAUTIFUL SPACES

## 1. INTRODUCTION

The preparation of the Annual Budget is both a statutory requirement of the *Local Government Act* 1995 and a responsible financial management practice. The development of the budget is guided by the Strategic Community Plan (SCP), Corporate Business Plan (CBP), Long Term Financial Plan (LTFP), budget history and the economic climate.

In framing the Annual Budget 2020/21, the City considered the current economy, particularly in relation to COVID-19, as well as the Strategic Community Plan 2020-2030 (SCP) and Corporate Business Plan 2020-2024. The need to continue to deliver quality services to the community remains a priority with the City conscious of community expectations in relation to household budgets. In acknowledging ratepayers may be experiencing financial hardship, Council adopted Policy P697 Financial Hardship Assistance, as well as other measures contained in the City of South Perth Local Community Response and Relief Package. These measures are contained within the Annual Budget 2020/21.

The COVID-19 pandemic, a world health crisis first and foremost, has translated into a world economic crisis, requiring an unprecedented response from all levels of government. The Australian, Western Australian and WA Local Government sectors have played a significant role in supporting our communities, likely to be considered world best practice.

Whilst optimism has grown in the past few months in the lead up to the adoption of the Budget, a second or third pandemic wave (COVID-19) may result in further setbacks that require support. Therefore, the City will continue to monitor and respond appropriately, as it has to this point.

Developing an annual budget during a once in 100 hundred year event has been challenging, and was considered in the context of the preceding years. The 2016/17 Annual Report described the impact of the downturn in the WA economy on the City finances, particularly relating to the flattening of revenue streams and increased expenditure pressure. A program commenced during the 2017/18 financial year to improve the results at each half year review and Annual Budget. The emphasis was to increase non rate revenue and reduce operating expenditure, thereby increasing our ability to improve and maintain the \$791m worth of community assets in order to deliver on the City vision: A City of active places and beautiful spaces.

Despite significant challenges, the City has made good progress on the continuous improvement journey. Had the City not undertaken these measures, the response to COVID-19 would have been more challenging from a fiscal perspective.

## 1.1 OPERATING REVENUE AND EXPENDITURE

Overall, in terms of the Statement of Comprehensive Income, the Annual Budget 2020/21 includes Revenue (Operating) of \$56.68m, Expenses (Operating) of \$61.83m and Non-Operating Grant income of \$3.18m. Notwithstanding challenges, the City made significant progress to reduce operating expenditure by \$0.47m from the Annual Budget 2019/20. The challenge was difficult as a number of major costs have increased, in addition to issues that have previously been described,

such as servicing of additional infrastructure and changes to Regulations requiring the City to write off all assets worth less than \$5,000.00.

In terms of Operating Revenue, as with most local governments across Australia, Rates form the largest component of the Budget. At the Special Council Meeting on 21/04/2020 Council resolved to consider implementing a 0% rate increase (average). In accordance with the Council Resolution, the City has prepared the Annual Budget 2020/21 with a 0% rate increase (average). In a non-revaluation year, this would result in the rates issued to be the same as the previous year.

However, as 2020/21 is a Gross Rental Value (GRV) revaluation year, the majority of rates assessments will be different from 2020/19. A 0% rate increase (average) will result in the vast majority of the 2020/21 Rate Notices issued with the same or lower amount than 2019/20, with some higher. As rates are a mathematical equation, when one side of the calculation is changed, it will impact the final outcome.

The second largest revenue component is the waste service charge operating with a reserve account to ensure the service charge is aligned to the costs incurred. The Annual Budget 2020/21 is presented to Council for adoption with the same waste service charge as 2019/20, being \$325.00 for the typical household. The City's waste service charge continues to be one of the lowest in the Metropolitan area. All other waste service charges remain the same as 2019/20.

The City's (non-rate) revenue streams have been negatively impacted by COVID-19 in terms of the volume/activity, as well as the impact of prices remaining the same as 2019/20. Ordinarily there would be a slight increase to some fees and charges, however for the Annual Budget 2020/21 the fees and charges remain the same, consistent with the COVID-19 measures included in the Local Community Response and Relief Package adopted by Council on 21/04/2020. In terms of the volume/activity, parking revenue is down significantly compared to the Annual Budget 2019/20, by approximately \$1m and interest revenue has also been impacted by the lower deposit rates.

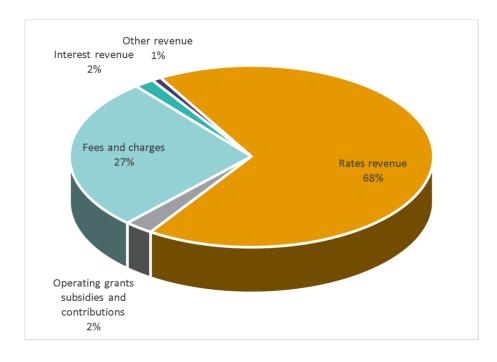

In terms of Operating Expenditure the major components is salary and wages, is represented by the permanent establishment of 232 Full Time Equivalents (FTEs), the same as in 2019/20. Staffing in the budget reflects an appropriate mix of resources across the organisation to match our capacity with service expectations, as described in the Corporate Business Plan 2020-2024. The total payroll budget has increased to make allowance for the 2.1% pay increase as per the Enterprise Agreement (EA). In addition to staff employed under the terms of the EA, some staff are employed on fixed term contracts, in accordance with *Local Government Act 1995*, as well as staff employed on fixed term contracts for the duration of a project (e.g. 1System project).

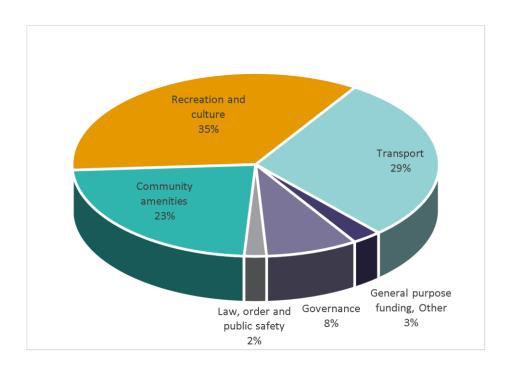

Following salary and wages, Materials and Contracts forms the next major Operating Expenditure component, together these fund the majority of the service delivery. The services and operating projects delivered by the City were reviewed in response to COVID-19 and where appropriate, reallocated to service the changing community needs.

The Operating Budgets are developed in response to the City's strategies, as described in the SCP. Management Budgets are considered by each of the City's business units, aligned to each business unit plan and the CBP. Budgets are then approved by City Executive to be presented for Council consideration. Four Concept Briefings (Budget Workshops) were conducted between March and June 2020 with Councillors and Management, in order to prepare the Budget for adoption at the June Ordinary Council Meeting. Each Budget must be adopted by an Absolute Majority of Council.

The organisational structure is consistent with the monthly financial report groupings, forming the basis for the Management Budgets. This permits comparative analysis between years. The Statutory Budget includes the disclosures required by relevant legislation and regulations.

The graphs presented are to illustrate the components of the Budgeted Operating Revenue and Expenditure.

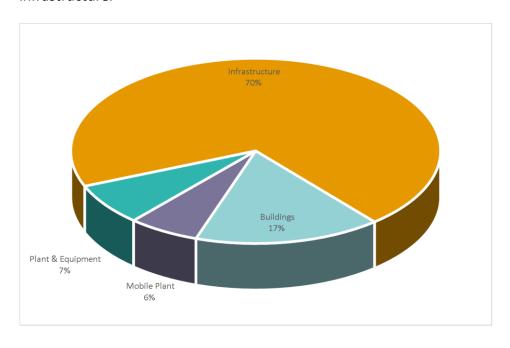

## 1.2. CAPITAL EXPENDITURE

The 2020/21 Capital Works program has a total of \$16.14m, funded from Grants/Trade-ins (\$3.49M), Reserves (\$3.69m), Loans (\$1.56m) and Municipal funds (\$8.94m). The Capital Expenditure was formulated using asset management systems which provide advice in relation to conducting repairs and remedial work on the City's infrastructure assets.

The 2020/21 Capital Budget includes the commencement of construction of new community facilities as well as upgrades and improvements to existing infrastructure such as roads, paths and drainage infrastructure.

## 1.3. MOVEMENTS IN RESERVES

Included in the Annual Budget 2020/21 is an estimated net reduction of the Reserves by \$3.86m, including interest earned, transfers in and funds applied.

The intended purposes of the various Reserves are disclosed in the Statutory Budget at Note 7, which includes the detail of the major transfers to and from those Reserves and the projected year end balances of each Reserve (and the aggregate movements to and from the Reserves).

## 1.4. MUNICIPAL BORROWINGS

The City uses loan borrowings as part of a responsible and sustainable funding strategy. Loan borrowings are undertaken in accordance with Council Policy P604 - Use of Debt as a Funding Source and Section 6.20 of the *Local Government Act 1995*. Borrowings are sourced through the WA Treasury Corporation and are taken as fixed rate loans on terms matching the life of the associated asset. All loan borrowings are secured against the general revenue of the City.

To fund the Capital Budget the City plans to allow for \$1.6m of borrowings in the Annual Budget 2020/21. Due to the significant uncertainty relating to COVID-19, the City will monitor the need to draw down the loan from the WA Treasury Corporation. The requirement to take out the loan will be reviewed as part of the half year Budget Review in December 2020. Information is provided at Note 6 of the Statutory Budget.

## 2. BUDGET COMPONENTS

The 2020/21 Annual Budget has the following components to be adopted by Council, these being:

- a General Rate in the Dollar of 7.7634 cents is applied to the Gross Rental Value (GRV) of all rateable property within the City for the year ending 30 June 2021;
- b. a Minimum Rate of \$994.00 be set for the year ending 30 June 2021 notwithstanding the General Rate set out in part (a) above;
- c. the following rubbish service charges be applied for the year ending 30 June 2021:
  - i. a standard Rubbish Service Charge of \$325.00;
  - ii. a non-rateable property Rubbish Service Charge of \$448.00;
  - iii. a standard 1,100 litre bin Rubbish Service Charge of \$1,625.00;
  - iv. a non-rateable property 1,100 litre bin Rubbish Service Charge of \$2,240.00;
- d. the Swimming Pool Inspection Fee for the year ending 30 June 2021 of \$30.00;
- e. the following dates be set for payment of rates by instalments:

First instalment 26 August 2020
Second instalment 4 November 2020
Third instalment 6 January 2021
Fourth instalment 10 March 2021

f. an Administration Charge of \$10.00 per instalment for payment of rates by instalments be applied to the second, third and fourth instalment in accordance with Section 6.45(3) and (4)

- of the *Local Government Act 1995* and Regulation 67 of the Local Government (Financial Management) Regulations 1996;
- g. an Interest Rate of 5.5% be imposed on payment by instalments, to apply to the second, third and fourth instalment in accordance with Section 6.45(3) of the *Local Government Act 1995* and Regulation 68 of the Local Government (Financial Management) Regulations 1996;
- h. an Interest Rate of 8% be imposed on overdue rates in accordance with Section 6.51(1) of the *Local Government Act 1995* and Regulation 70 of the Local Government (Financial Management) Regulations 1996;
- i. an Interest Rate of 8% be imposed on unpaid Underground Power (UGP) Service Charges in accordance with Section 6.51(1) of the *Local Government Act 1995* and Regulation 70 of the Local Government (Financial Management) Regulations 1996;
- j. an Interest Rate of 8% be imposed on outstanding debtors in accordance with Section 6.13(1) of the *Local Government Act 1995*;
- k. a Monthly Maintenance Fee of \$440.00 (treated as 'Input Taxed' for the purposes of the GST) is applied to all units in the Collier Park Village for the period from July 2020 to June 2021 inclusive;
- the Statutory Annual Budget for the year ending 30 June 2021 comprising Section 2 of the 2020/21 Annual Budget as distributed with this Agenda and tabled at this meeting, be adopted;
- m. the Management Account Summary Budget Schedules for the financial year ending 30 June 2021 as set out in Section 3 of the Annual Budget be endorsed;
- n. the Capital Expenditure Budget for the financial year ending 30 June 2021 as set out in Section 2, Note 4 of the Annual Budget is adopted;
- o. the Reserve Fund transfers for the financial year ending 30 June 2021 as set out in Section 2, Note 7 of the Annual Budget be approved;
- p. the Schedule of Fees and Charges as set out in the Fees and Charges Schedule for the year ending 30 June 2021 be adopted, including State Government Statutory Fees which are still to be determined at a later date than this Report;
- q. the effective date for all items detailed in the 2020/21 Schedule of Fees and Charges is 1 July 2020;
- r. Council adopt a definition of 'significant (material) variances' of \$10,000.00 or 10% (whichever is the greater) for each capital project and business unit operating revenue and expenditure line item;
- s. In addition to the measures contained within this budget, the following are the specific measures to continue the City's response to COVID-19:
  - Waiver of all interest accrued on Rates, Emergency Services Levy (ESL) and Waste from 1
    July 2020 to 30 September 2020, for residential and commercial properties in accordance
    with Policy P697 Financial Hardship Assistance;
  - ii. Suspension of debt collection activities for the 2020/21 financial year;
  - iii. Granting a 3 month repayment holiday, with no penalty interest, for all community group Self Supporting Loans from 1 July 2020 to 30 September 2020;
  - iv. Waiver of club and community organisations lease and licence charges, excluding outgoings for 3 months from 1 July 2020 to 30 September 2020;

- v. Waiver of licence fees on a pro-rata basis for businesses affected by the WA State Government Closure and Restriction (Limit the Spread) Directions;
- vi. Freezing commercial property lease and licence payments for those that apply and are deemed eligible under Policy P697 Financial Hardship Assistance for a period of three months from 1 July 2020 to 30 September 2020;
- vii. Freezing all rent reviews for a period of three months from 1 July 2020 to 30 September 2020;
- viii. Provide relief in accordance with the Commercial Tenancies Code of Conduct and Policy P697 Financial Hardship Assistance;
  - ix. Endorse the refund of all cancelled bookings at City controlled properties and facilities;
  - x. Adopt the grant programs contained in this budget to support community sporting and cultural groups;
- xi. Adopt the funding for preparation of an Economic Development Plan to provide a framework for practical support to assist the recovery of the local business sector.

The increase in the rates levied in 2020/21 will be 0% increase (average) to the rates levied in 2019/20.

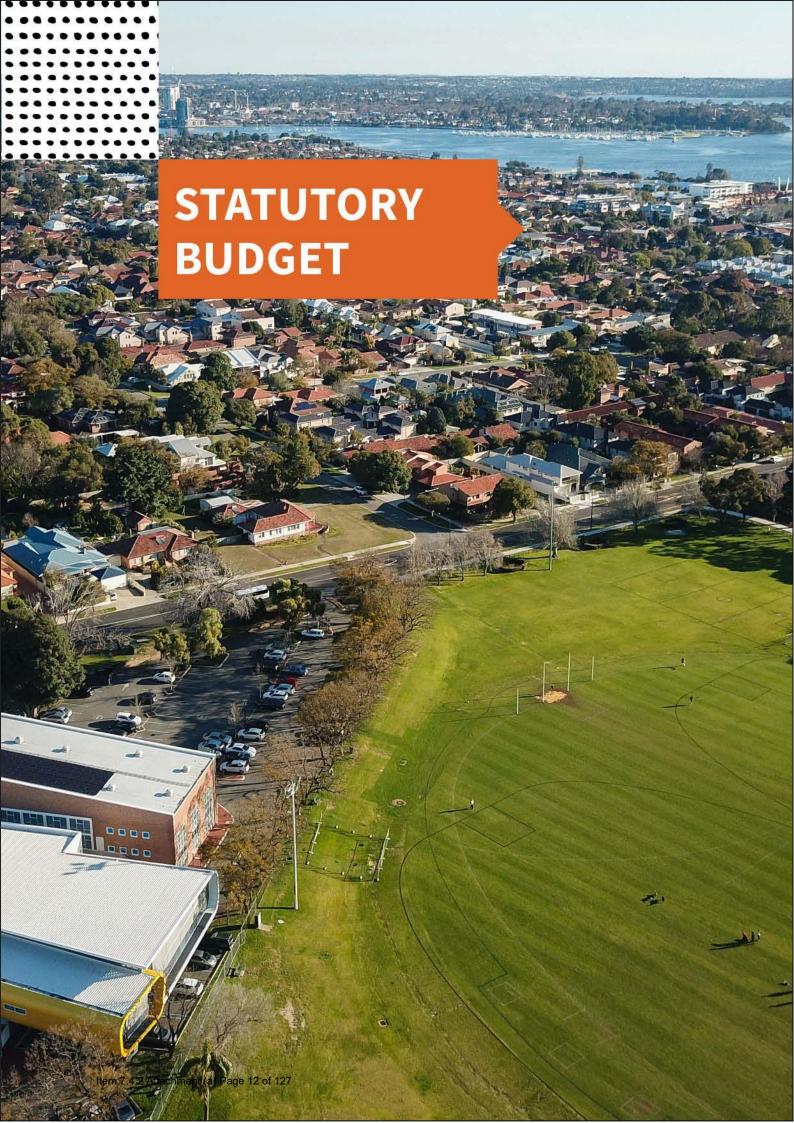

## 3. BUDGET STRUCTURE

In addition to the Statutory Budget format, the 2020/21 Budget has also been presented in the management format of the monthly Management Accounts as submitted to Council. The Management Budgets allow an assessment of each Directorate's revenue and expenditure and can be used to provide a consolidated view of the operations under Council's control.

The Management Operating Budgets include: Operating Revenue and Expenditure; Payroll and associated costs; Depreciation; Interest and related costs. They exclude Capital Revenues; Capital Expenditure; Loan Principal Repayments; Transfers to or from cash backed Reserves and the accrual Opening Position carried forward from the previous year.

The 2020/21 Budget has been developed in response to many, at times, competing issues, which have been considered by Council. The budget was adopted at the Ordinary Council Meeting on 23/06/2020.

## **BASIS OF PREPARATION**

The budget has been prepared in accordance with Australian Accounting Standards (as they apply to local governments and not-for-profit entities) and interpretations of the Australian Accounting Standards Board, and the Local Government Act 1995 and accompanying regulations. The Local Government (Financial Management) Regulations 1996 take precedence over Australian Accounting Standards. Regulation 16 prohibits a local government from recognising as assets Crown land that is a public thoroughfare, such as land under roads, and land not owned by but under the control or management of the local government, unless it is a golf course, showground, racecourse or recreational facility of State or regional significance. Consequently, some assets, including land under roads acquired on or after 1 July 2008, have not been recognised in this budget. This is not in accordance with the requirements of AASB 1051 Land Under Roads paragraph 15 and AASB 116 Property, Plant and Equipment paragraph 7

Accounting policies which have been adopted in the preparation of this budget have been consistently applied unless stated otherwise. Except for cash flow and rate setting information, the budget has been prepared on the accrual basis and is based on historical costs, modified, where applicable, by the measurement at fair value of selected non-current assets, financial assets and liabilities.

#### THE LOCAL GOVERNMENT REPORTING ENTITY

All funds through which the City controls resources to carry on its functions have been included in the financial statements forming Part of this budget.

In the process of reporting on the local government as a single unit, all transactions and balances between those Funds (for example, loans and transfers between Funds) have been eliminated.

All monies held in the Trust Fund are excluded from the financial statements. A separate statement of those monies appears at Note 13 to the budget.

#### 2018/19 ACTUAL BALANCES

Balances shown in this budget as 2018/19 Actual are estimates as forecast at the time of budget preparation and are subject to final adjustments.

## CHANGE IN ACCOUNTING POLICIES

On the 1 July 2019 the following new accounting policies are to be adopted and have impacted on the preparation of the budget:

AASB 15 - Revenue from Contracts with Customers;

AASB 16 - Leases; and

AASB 1058 - Income of Not-for-Profit Entities.

# KEY TERMS AND DEFINITIONS - NATURE OR TYPE REVENUES

RATES

All rates levied under the Local Government Act 1995. Includes general, differential, specified area rates, minimum rates, interim rates, back rates, ex-gratia rates, less discounts offered. Exclude administration fees, interest on instalments, interest on arrears, service charges and sewerage rates.

## SERVICE CHARGES

Service charges imposed under Division 6 of Part 6 of the Local Government Act 1995. Regulation 54 of the Local Government (Financial Management) Regulations 1996 identifies these as television and radio broadcasting, underground electricity and neighbourhood surveillance services.

Excludes rubbish removal charges. Interest and other items of a similar nature received from bank and investment accounts, interest on rate instalments, interest on rate arrears and interest on debtors.

## PROFIT ON ASSET DISPOSAL

Profit on the disposal of assets including gains on the disposal of long term investments. Losses are disclosed under the expenditure classifications.

#### REVENUES (CONTINUED)

#### OPERATING GRANTS, SUBSIDIES AND CONTRIBUTIONS

Refer to all amounts received as grants, subsidies and contributions that are not non-operating grants.

#### NON-OPERATING GRANTS, SUBSIDIES AND CONTRIBUTIONS

Amounts received specifically for the acquisition, construction of new or the upgrading of non-current assets paid to a local government, irrespective of whether these amounts are received as capital grants, subsidies, contributions or donations.

#### FEES AND CHARGES

Revenue (other than service charges) from the use of facilities and charges made for local government services, sewerage rates, rentals, hire charges, fee for service, photocopying charges, licences, sale of goods or information, fines, penalties and administration fees. Local governments may wish to disclose more detail such as rubbish collection fees, rental of property, fines and penalties, other fees and charges.

#### INTEREST EARNINGS

Interest and other items of a similar nature received from bank and investment accounts, interest on rate instalments, interest on rate arrears and interest on debtors.

#### OTHER REVENUE / INCOME

Other revenue, which can not be classified under the above headings, includes dividends, discounts, and rebates. Reimbursements and recoveries should be separated by note to ensure the correct calculation of ratios.

#### **EXPENSES**

#### **EMPLOYEE COSTS**

All costs associated with the employment of person such as salaries, wages, allowances, benefits such as vehicle and housing, superannuation, employment expenses, removal expenses, relocation expenses, worker's compensation insurance, training costs, conferences safety expenses, medical examinations, fringe benefit tax, etc.

## MATERIALS AND CONTRACTS

All expenditures on materials, supplies and contracts not classified under other headings. These include supply of goods and materials, legal expenses, consultancy, maintenance agreements, communication expenses, advertising expenses, membership, periodicals, publications, hire expenses, rental, leases, postage and freight etc. Local governments may wish to disclose more detail such as contract services, consultancy, information technology, rental or lease expenditures.

## UTILITIES (GAS, ELECTRICITY, WATER, ETC.)

Expenditures made to the respective agencies for the provision of power, gas or water. Exclude expenditures incurred for the reinstatement of roadwork on behalf of these agencies.

## INSURANCE

All insurance other than worker's compensation and health benefit insurance included as a cost of employment.

## LOSS ON ASSET DISPOSAL

Loss on the disposal of fixed assets includes loss on disposal of long term investments.

## DEPRECIATION ON NON-CURRENT ASSE

Depreciation expense raised on all classes of assets.

## INTEREST EXPENSES

Interest and other costs of finance paid, including costs of finance for loan debentures, overdraft accommodation and refinancing expenses.

## OTHER EXPENDITURE

Statutory fees, taxes, provision for bad debts, member's fees or State taxes. Donations and subsidies made to community groups.

## Comprehensive Income by Reporting Program - Key Terms and Definitions

## **KEY TERMS AND DEFINITIONS - REPORTING PROGRAMS**

In order to discharge its responsibilities to the community, Council has developed a set of operational 'and financial objectives. These objectives have and financial and financial objectives. These objectives have been established both on an overall basis, reflected by the City's Community Vision, and for each of its broad activities/programs.

#### Vision

Our vision statement describes how the City of South Perth will respond to the community's aspirations and priorities in the future. The community vision was identified through the Our Vision Ahead project:

'A City of active places and beautiful spaces. A connected community with easily accessible, vibrant neighbourhoods and a unique, sustainable natural environment.'

## OBJECTIVE ACTIVITIES

## GOVERNANCE

To provide a decision-making process for the efficient allocation of scarce resources.

The programme reflects the statutory element of local government operations including Council Member support, community consultation and involvement, statutory reporting, compliance and accountability.

#### GENERAL PURPOSE FUNDING

To collect revenue to allow for the provision of services.

Rates, general purpose government grants and interest revenue.

#### LAW, ORDER, PUBLIC SAFETY

To provide services to help ensure a safer and environmentally conscious community.

This programme embraces parking management, animal control, fire prevention and Safer Cities.

#### HEALTH

To provide an operational framework for environmental and community health.

The health programme includes food premises inspections pest control, environmental health administration, and operation and maintenance of the buildings and grounds of child health centres.

#### **EDUCATION AND WELFARE**

To provide services to disadvantaged persons, the elderly, children and youth.

The education programme includes the maintenance of pre-school facilities including the operating costs for utilities, building maintenance and grounds maintenance for each of these facilities.

The welfare programme includes the operation and maintenance of located the buildings and grounds of senior citizens centres located at Manning and South Perth which represent the major components of this programme.

Also included are staff costs for coordinators at the centre and other voluntary services.

## HOUSING

To provide and maintain elderly residents housing

The largest single component of this programme is the operation and maintenance of the Collier Park Retirement Village. This includes all operating costs for the facilities and the revenue streams arising from residents' fees and government subsidies.

## COMMUNITY AMENITIES

To provide services required by the community.

This programme includes household rubbish collection services, recycling collections and operation of the waste transfer station. The other major component of the Community Amenities programme is administration of the town planning scheme and orderly planning of the district.

## RECREATION AND CULTURE

To establish and effectively manage infrastructure and resources which will help the social wellbeing of the community.

This programme includes operation and maintenance of our halls and recreation centre.

The operation of two libraries and a local studies facility fall within this programme which

The operation of two libraries and a local studies facility fall within this programme which also includes the maintenance and upkeep of sporting and passive reserves, sporting pavilions and public facilities. Another major component of the revenue stream for this programme is the operation of a 27 hole golf course at Collier Park. The City of South Perth Fiesta forms part of the Recreation & Culture programme as do activities associated with supporting community and cultural organisations.

## TRANSPORT

To provide safe, effective and efficient transport services to the community.

The transport programme includes the maintenance and rehabilitation of roads, drainage works, paths, parking facilities streetscape and verge maintenance as well as maintenance of traffic devices and traffic signs and expenses relating to street lighting.

## ECONOMIC SERVICES

To help promote the local government and it's economic wellbeing.

This programme includes building control, pool inspections and the operation of the City's plant nursery.

## OTHER PROPERTY AND SERVICES

To monitor and control operating accounts.

This programme includes public works overheads and operation 'of the City's fleet and plant services

Specified area rates (refer note 1 (c))					_	-		-
Total Rates						38,361,956	37,804,985	37,676,981

All land (other than exempt land) in the City of South Perth is rated according to its Gross Rental Value (GRV).

The general rates detailed for the financial year ended 30 June 2021 have been determined by Council on the basis of raising the revenue required to meet the deficiency between the total estimated expenditure proposed in the budget and the estimated revenue to be received from all sources other than rates and also considering the extent of any increase in rating over the level adopted in the previous year.

The minimum rates have been determined by Council on the basis that all ratepayers must make a reasonable contribution to the cost of local government services and facilities.

## 1(b) Interest Charges and Instalments - Rates and Service Charges

The following instalment options are available to ratepayers for the payment of rates and services charges:

Instalment Options	Date Due	Instalment Plan Admin Charge	Instalment Plan Interest Rate	Unpaid Rates Interest Rate
		ş	%	%
Option One				
Single Full Payment	26 August 2020	0	0.0%	0.0%
Option Two				
First Instalment	26 August 2020	0	0.0%	0.0%
Second Instalment	4 November 2020	10	5.5%	8.0%
Option Three				
First Instalment	26 August 2020	0	0.0%	0.0%
Second Instalment	4 November 2020	10	5.5%	8.0%

	520,000	605,000	605,000

# 1(c) Objectives and Reasons for Differential Rating

The City does not apply Differential Rating

## 1(d) Specified Area Rate

The City did not raise service charges for the year ended 30 June 2021.

## 1(e) Rates discounts

The City does not anticipate any rates discount for the year ended 30 June 2021.

## 1(f) Waivers or concessions

The City does not anticipate any waivers or concessions for the year ended 30 June 2021.

## 2. NET CURRENT ASSETS

# 2(a). Net Current Assets

Non cash amounts excluded from operating activities		11,036,908	11,171,060	12,323,516

# 2(c). Current / Non-Current Assets - Key Terms

## SIGNIFICANT ACCOUNTING POLICIES

#### CURRENT AND NON-CURRENT CLASSIFICATION

In the determination of whether an asset or liability is current or noncurrent, consideration is given to the time when each asset is expected to be settled. The asset is classified as current if it is expected to be settled within the next 12 months, being the City's operational cycle. In the case of liabilities where the City does not have the unconditional right to defer settlement beyond 12 months, such as vested long service leave, the liability is classified as current even if not expected to be settled within the next 12 months. Inventories held for trading are classified as current even if not expected to be realised in the next 12 months except for assets held for sale which is classified as either current or non-current or non-current, based on the City's intentions to release for sale.

#### TRADE AND OTHER PAYABLES

Trade and other payables represent liabilities for goods and services that are unpaid at the end of the reporting period. The liability arises when the City becomes obligated to make future payments in respect of those goods and services. The amounts are generally unsecured.

#### **INVENTORIES - Stores and Materials**

Inventories held at reporting date have been valued at the lower of cost and net realisable value.

#### Superannuation

Superannuation expense for the period reflects the City's contribution to the WA Local Government Superannuation Fund which provides benefits to the City's employees.

The plan is a cash accumulation scheme and the City bears no liability for obligations that may otherwise arise if the scheme were a defined benefit scheme

#### TRADE AND OTHER RECEIVABLES

Trade and other receivables include amounts due from ratepayers for unpaid rates and service charges and other amounts due from third parties for goods sold and services performed in the ordinary course of business

The receivables are carried at their nominal amounts due less a provision for impairment of debts.

The likelihood collecting debts is reviewed on an ongoing basis. Debts recognised as uncollectible are written off when identified. A provision for impaired debts is made when there is objective evidence that the debt will not be collectible.

#### EMPLOYEE BENEFITS

Short-term employee benefits Provision is made for the City's obligations for short-term employee benefits. Short term employee benefits are benefits (other than termination benefits) that are expected to be settled wholly before12 months after the end of the annual reporting period in which the employees render the related service, including wages, salaries and sick leave. Short-term employee benefits are measured at the (undiscounted) amounts expected to be paid when the obligation is settled.

The City's obligations for short-term employee benefits such as wages, salaries, sick leave are recognised as a part of the current trade and other payables in the statement of financial position. The City's obligations for employee's annual leave and long service entitlements expected to be settled within 12 months are recognised as a part of current provisions in the statement of financial position.

#### ASSETS HELD FOR RESALE

Land (and the buildings affixed to it) specifically identified as 'Held for Sale' in the City's Long Term Financial Plan has been independently valued at net realisable value for disposal purposes but is recorded in the financial statements at the lower of net realisable value or cost.

Revenue arising from the disposal of real property is recognised in the Statement of Comprehensive Income at the time of signing a binding contract of sale.

## 3. RECONCILIATION OF CASH

## 4(c). Fixed Assets - Key Terms

## SIGNIFICANT ACCOUNTING POLICIES

#### INFRASTRUCTURE, PROPERTY, PLANT AND EQUIPMENT

Each class of fixed assets within the property, plant and equipment or infrastructure groupings, is carried at fair value, or for assets acquired / disposed of since revaluation date at cost, as indicated, less, where applicable, any accumulated depreciation and impairment losses.

#### MANDATORY REQUIREMENT TO REVALUE NON-CURRENT ASSETS

Effective from 1 July 2012, the Local Government (Financial Management) Regulations were amended and the measurement of non-current assets at fair value became mandatory.

During the year ended June 2013, the City commenced the process of adopting fair value in accordance with the regulations.

Whist the amendments initially allowed for a phasing in of fair value in relation to fixed assets over three years, as at 30 June 2015 all non-current assets were carried at fair value in accordance with the statutory requirements.

Thereafter, each asset class must be revalued in accordance with the regulatory framework established.

Relevant disclosures, in accordance with the requirements of Australian Accounting Standards, have been made in the financial report as necessary.

#### LAND UNDER CONTROL

In accordance with Local Government (Financial Management) Regulation 16(a), the Council was required to include as an asset (by 30 June 2013), Crown Land operated by the local government as a golf course, showground, racecourse or other sporting or recreational facility of State or regional significance. Council has included such crown land (which comes under this regulation) in its 2012/2013 and subsequent annual financial statements.

# INITIAL RECOGNITION AND MEASUREMENT BETWEEN MANDATORY REVALUATION DATES

All assets are initially recognised at cost and subsequently revalued in accordance with the mandatory measurement framework detailed above.

In relation to this initial measurement, cost is determined as the fair value of the assets given as consideration plus costs incidental to the acquisition. For assets acquired at no cost or for nominal consideration, cost is determined as fair value at the date of acquisition.

The cost of non-current assets constructed by the Council includes the cost of all materials used in construction, direct labour on the project and an appropriate proportion of variable and fixed overheads.

Individual assets acquired between initial recognition and the next revaluation of the asset class in accordance with the mandatory measurement framework detailed above, are carried at cost less accumulated depreciation as management believes this approximates fair value. They will be subject to revaluation at the next anniversary date in accordance with the mandatory measurement framework detailed above.

#### LAND UNDER ROADS

In Western Australia, all land under roads is Crown land, the responsibility for managing which, is vested in the local government.

Effective as at 1 July 2008, Council elected not to recognise any value for land under roads acquired on or before 30 June 2008.

This action reflects the treatment available in Australian Accounting Standard AASB 1051 Land Under Roads. Local Government (Financial Management) Regulation 16 (a)(i) prohibits local governments from recognising such land as an asset

In respect of land under roads acquired on or after 1 July 2008, as detailed above, Local Government (Financial Management) Regulation 16(a)(i) prohibits local governments from recognising such land as an asset.

Whilst such treatment is inconsistent with the requirements of AASB 1051, Local Government (Financial Management) Regulation 4(2) provides, in the event of such an inconsistency, the Local Government (Financial Management) Regulations prevail.

Consequently, any land under roads acquired on or after 1 July 2008 is not included as an asset of the Council.

# 5(b). Asset Depreciation - Key Terms

## SIGNIFICANT ACCOUNTING POLICIES

#### DEPRECIATION

The depreciable amount of all fixed assets including buildings but excluding freehold land, are depreciated on a straight-line basis over the individual asset's useful life from the time the asset is held ready for use. Leasehold improvements are depreciated over the shorter of either the unexpired period of the lease or the estimated useful life of the improvements.

Infrastructure Assets are depreciated based on the asset component condition with most asset classes able to be reliably assessed by inspection with the exception of drainage assets which are valued using (reliable) age data as a reasonable proxy for condition.

Major depreciation periods used for each class of depreciable asset are:

Artworks 50 years

Buildings 15 - 200 years (based on components)

Plant and Equipment 10 years
Furniture and Fittings 10 years
Computer Equipment 3 - 10 years
Mobile Plant 3 - 10 years
Infrastructure - Roads 20 - 100 years
Infrastructure - Drains 100 years

Infrastructure - Paths 40 - 65 years dependent on path type

Infrastructure - Street Furniture20 yearsInfrastructure - Parks Equipment10 – 40 yearsInfrastructure - Car Parking25-100 yearsForeshore Assets100 years

#### **DEPRECIATION (CONTINUED)**

Gains and losses on disposals are determined by comparing proceeds with the carrying amount. These gains and losses are included in profit or loss in the period which they arise.

When an item of property, plant and equipment is revalued, any accumulated depreciation at the date of the revaluation is treated in one of the following ways:

- a) Restated proportionately with the change in the gross carrying amount of the asset so that the carrying amount of the asset so that the carrying amount of the asset after revaluation equals its revalued amount; or
- b) Eliminated against the gross carrying amount of the asset and the net amount restated to the revalued amount of the asset.

#### **IMPAIRMENT OF ASSETS**

In accordance with Australian Accounting Standards, the City's assets other than inventories are assessed at each reporting date to determine whether or not there is any indication that they may be impaired. Where such an indication exists, an estimate of the recoverable amount of the asset is made in accordance with the provisions of AASB 136 Impairment of Assets - and appropriate adjustments are made. Impairment losses are recognised immediately in the Statement of Comprehensive Income.

For non-cash generating assets such as roads, paths, drains and public buildings, no annual assessment is required. Rather AASB116.31 applies and revaluations need only be made with sufficient regularity to ensure the carrying value does not differ materially from that which would be determined using fair value.

Total amount of credit unused	40,000	40,000	40,000

# 6(e). Information on Borrowings - Key Terms

## SIGNIFICANT ACCOUNTING POLICIES

## **BORROWING COSTS**

All loans and borrowings are initially recognised at fair value less directly attributable transaction costs. Following initial recognition, interest bearing loans and borrowings are measured at amortised cost.

Fees paid on the establishment of loan facilities that are yield related are included in the carrying amount of the borrowings. Interest bearing loans and borrowings are classified as current liabilities unless the City has an unconditional right to defer settlement of that liability for at least 12 months after balance date.

## 7. CASH BACKED RESERVES

## 7(a). Cash Backed Reserves

# 10. REVENUE RECOGNITION - KEY TERMS

# SIGNIFICANT ACCOUNTING POLICIES

Recognition of revenue is dependant on the source of revenue and the associated terms and conditions associated with each source of revenue and recognised as follows:

Revenue Category	Nature of goods and services	When obligations typically satisfied	Payment terms	Returns/Refunds/ Warranties	Determination of transaction price	Allocating transaction price	Measuring obligations for returns	Revenue recognition
Rates	General Rates	Over time	Payment dates adopted by Council during the year	None	Adopted by council annually	When taxable event occurs	Not applicable	When rates notice is issued
Grant contracts with customers	Community events, minor facilities, research, design, planning evaluation and services	Over time	Fixed terms transfer of funds based on agreed milestones and reporting	Contract obligation if project not complete	Set by mutual agreement with the customer	Based on the progress of works to match performance obligations	Returns limited to repayment of transaction price of terms breached	Output method based on project milestones and/or completion date matched to performance obligations as inputs are shared
Grants, subsidies or contributions for the construction of non-financial assets	Construction or acquisition of recognisable non-financial assets to be controlled by the local government	Over time	Fixed terms transfer of funds based on agreed milestones and reporting	Contract obligation if project not complete	Set by mutual agreement with the customer	Based on the progress of works to match performance obligations	Returns limited to repayment of transaction price of terms breached	Output method based on project milestones and/or completion date matched to performance obligations as inputs are shared
Grants with no contract commitments	General appropriations and contributions with no reciprocal commitment	No obligations	Not applicable	Not applicable	Cash received	On receipt of funds	Not applicable	When assets are controlled
Licences/ Registrations/ Approvals	Building, planning, development and animal management, having the same nature as a licence regardless of naming.	Single point in time	Full payment prior to issue	None	Set by State legislation or limited by legislation to the cost of provision	Based on timing of issue of the associated rights	No refunds	On payment and issue of the licence, registration or approval
Pool inspections	Compliance safety check	Single point in time	Equal proportion based on an equal annually fee	None	Set by State legislation	Apportioned equally across the inspection cycle	No refunds	After inspection complete based on a 4 year cycle
Other inspections	Regulatory Food, Health and Safety	Single point in time	Full payment prior to inspection	None	Set by State legislation or limited by legislation to the cost of provision	Applied fully on timing of inspection	Not applicable	Revenue recognised after inspection event occurs

Waste management collections	Kerbside collection service	Over time	Payment on an annual basis in advance	None	Adopted by council annually	Apportioned equally across the collection period	Not applicable	Output method based on regular weekly and fortnightly period as proportionate to collection service
Waste management entry fees	Waste treatment, recycling and disposal service at disposal sites	Single point in time	Payment in advance at gate or on normal trading terms if credit provided	None	Adopted by council annually	Based on timing of entry to facility	Not applicable	On entry to facility
Property hire and entry	Use of halls and facilities	Single point in time	In full in advance	Refund if event cancelled within 7 days	Adopted by council annually	Based on timing of entry to facility	Returns limited to repayment of transaction price	On entry or at conclusion of hire
Memberships	Gym and pool membership	Over time	Payment in full in advance	Refund for unused portion on application	Adopted by council annually	Apportioned equally access the access period	Returns limited to repayment of transaction price	Output method Over 12 months matched to access right
Fees and charges for other goods and services	Cemetery services, library fees, reinstatements and private works	Single point in time	Payment in full in advance	None	Adopted by council annually	Applied fully based on timing of provision	Not applicable	Output method based on provision of service or completion of works
Commissions	Commissions on licencing and ticket sales	Over time	Payment in full on sale	None	Set by mutual agreement with the customer	On receipt of funds	Not applicable	When assets are controlled
Reimbursements	Insurance claims	Single point in time	Payment in arrears for claimable event	None	Set by mutual agreement with the customer	When claim is agreed	Not applicable	When claim is agreed

# 11. Leases - Key Terms

## SIGNIFICANT ACCOUNTING POLICIES

## LEASES

At the inception of a contract, the City assesses whether the contract is, or contains, a lease.  $% \label{eq:contract}$ 

A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

At the commencement date, a right-of-use asset is recognised at cost and a lease liability.

At the present value of the lease payments that are not paid at that date. The lease payments are discounted using the interest rate implicit in the lease, if that rate can be readily determined.

If that rate cannot be readily determined, the City uses its incremental borrowing rate.

# 12. MAJOR LAND TRANSACTIONS, TRADING UNDERTAKINGS AND INTERESTS IN JOINT ARRANGEMENTS

It is not anticipated that the City will be party to any Major Land Transactions or Trading Undertakings during 2020/21.

## 13. INTEREST IN JOINT VENTURE ARRANGEMENTS

It is not anticipated that the City will be party to any Joint Venture Arrangements during 2020/21.

## 13(a). Interest in Joint Arrangements - Key Terms

## SIGNIFICANT ACCOUNTING POLICIES

## INTERESTS IN JOINT ARRANGEMENTS

Joint arrangements represent the contractual sharing of control between parties in a business venture where unanimous decisions about relevant activities are required.

Separate joint venture entities providing joint venturers with an interest to net assets are classified as a joint venture and accounted for using the equity method.

Joint venture operations represent arrangements whereby joint operators maintain direct interests in each asset and exposure to each liability of the arrangement. The City of South Perth's interests in the assets liabilities revenue and expenses of joint operations are included in the respective line items of the financial statements.

# 14. TRUST FUNDS

The City does not anticipate holding trust funds during the 2020/21 budget year

# 14(a). Trust Funds – Key Terms

## SIGNIFICANT ACCOUNTING POLICIES

## TRUST FUNDS

The City is required under the Local Government Act to maintain a separate and distinct Trust Fund to account for all monies held by way of deposit or in trust for any person, all monies held on behalf for specific purposes and all monies and property held in trust for any charitable or public purpose.

The City performs only a custodial role in respect of these monies and they cannot be used for City purposes.

All Trust Funds and the related liabilities to repay those deposits and bonds are excluded from the annual financial statements.

## 15. OTHER INFORMATION - KEY TERMS

#### SIGNIFICANT ACCOUNTING POLICIES

#### **GOODS AND SERVICES TAX**

Revenues, expenses and assets are recognised net of the amount of GST, except where the amount of GST incurred is not recoverable from the Australian Taxation Office (ATO). In these circumstances the GST is recognised as part of the cost of acquisition of the asset or as part of an item of expense.

Receivables and payables are stated with the amount of GST included. The net amount of GST recoverable from, or payable to, the ATO is included as a current asset or liability in the Statement of Financial Position. Cash flows are included the Statement of Cash Flows on a gross basis. The GST components of cash flows arising from investing or financing activities which are recoverable from, or payable to, the ATO are presented as operating cash flows in the statement.

#### CRITICAL ACCOUNTING ESTIMATES

The preparation of these financial statements in conformity with australian Accounting Standards requires management to make judgements, estimates and assumptions that effect the application of policies and reported amounts of assets and liabilities, income and expenses.

All such estimates are based on historical experience and other factors that are believed to be reasonable under the circumstances. This experience and other relevant factors combine to form the basis for making professional judgements about the carrying values of assets and liabilities that may not otherwise be readily apparent. Realised actual results may therefore differ from these professional estimates.

#### ROUNDING OFF FIGURES

Figures in this financial report, other than the rate in the \$, are rounded to the nearest dollar.

#### **COMPARATIVE FIGURES**

Unless otherwise stated, the budget comparative figures shown in this annual financial report relate to the original budget adopted by Council and does not include any subsequent amendments.

## **BUDGET COMPARATIVE FIGURES**

Unless otherwise stated, the budget comparative figures shown in the budget relate to the original budget estimate for the relevant item of disclosure.

## ALLOCATION OF CORPORATE COSTS

Allocation of corporate costs using Activity Based Costing principles has been included in this financial report. This allocation of costs has a neutral impact upon the overall operating result of the City but results in a more accurate reflection of the costs of providing specific services by incorporating an allocation for corporate services provided to service areas.

#### INVESTMENTS & OTHER FINANCIAL INSTRUMENTS

Initial Recognition and Measurement Financial assets and financial liabilities are recognised when the Council becomes a party to the contractual provisions to the instrument. For financial assets, this is equivalent to the that the Council commits itself to either the purchase or sale of the asset (that is, trade date accounting is adopted).

Financial instruments are initially measured at fair value plus transaction costs, except where the instrument is classified 'at fair value through profit of loss', in which case transaction costs are expensed to profit or loss immediately.

**Classification and Subsequent Measurement** Financial instruments are subsequently measured at fair value, amortised cost using the effective interest rate method. or cost.

Amortised cost is calculated as:

- (a) the amount at which the financial asset or financial liability is measured at initial recognition;
- (b) less principal repayments and any reduction for impairment; and (c) plus or minus the cumulative amortisation of the difference, if any, between the amounts initially recognised and the maturity amount calculated using the effective interest rate method.

The effective interest method used is to allocate interest income or interest expense over the relevant period and the effective interest rate is equivalent to the rate that discounts estimated future cash payments or receipts (including fees, transaction costs and other premiums or discounts) through the expected life (or when this cannot be reliably predicted, the contractual term) of the financial instrument to the net carrying amount of the financial asset or financial liability.

Revisions to expected future net cash flows will necessitate an adjustment to the carrying value with a consequential recognition of an income or expense in profit or loss.

(i) Financial assets at fair value through profit and loss Financial assets are classified at 'fair value through profit or loss' when they are held for trading for the purpose of short-term profit taking. Such assets are subsequently measured at fair value with changes in carrying amount being included in profit or loss. Assets in this category are classified as current assets.

## (ii) Loans and receivables

Loans and receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market and are subsequently measured at amortised cost. Loans and receivables are included in current assets where they are expected to mature within 12 months after the end of the reporting period.

## (iii) Held-to-maturity investments

Held-to-maturity investments are non-derivative financial assets with fixed maturities and fixed or determinable payments that the Council has the positive intention and ability to hold to maturity. They are subsequently measured at amortised cost. Gains or losses are recognised in profit or loss

#### SIGNIFICANT ACCOUNTING POLICIES

Held-to-maturity investments are included in current assets where they are expected to mature within 12 months after the end of the reporting period. All other investments are classified as non-current.

(iv) Available-for-sale financial assets Available-for-sale financial assets are non-derivative financial assets that are either not suitable to be classified into other categories of financial assets due to their nature, or they are designated as such by management. They comprise investments in the equity of other entities where there is neither a fixed maturity nor fixed or determinable payments.

They are subsequently measured at fair value with changes in such fair value (i.e. gains or losses) recognised in other comprehensive income (except for inpairment losses). When the financial asset is derecognised, the cumulative gain or loss pertaining to that asset previously recognised in other comprehensive income is reclassified into profit or loss.

Available-for-sale financial assets are included in current assets, where they are expected to be sold within 12 months after the end of the reporting period. All other available-for-sale financial assets are classified as non-current.

(v) Financial liabilities Non-derivative financial liabilities (excluding financial guarantees) guarantees) are subsequently measured at amortised cost. Gains or losses are recognised in profit or loss.

#### Impairment

A financial asset is deemed to be impaired if, and only if, there is objective evidence of impairment as a result of one or more events (a "loss event") having occurred, which has an impact on the estimated future cash flows of the financial asset(s).

In the case of available-for-sale financial assets, a significant or prolonged decline in the market value of the instrument is considered a loss event. Impairment losses are recognised in profit or loss immediately. Also, any cumulative decline in fair value previously recognised in other comprehensive income is reclassified to profit or loss at this point.

Loss events for financial assets carried at amortised cost may include: indications that the debtors or group of debtors are experiencing significant financial difficulty, default or delinquency in interest or principal payments; indications that they will enter bankruptcy or other financial reorganisation; and changes in arrears or economic conditions correlating with defaults.

For financial assets carried at amortised cost (including loans and receivables), a separate allowance account is used to reduce the carrying amount of financial assets impaired by credit losses.

After having taken all possible measures of recovery, if management establishes that the carrying amount cannot be recovered by any means, at that point the written-off amounts

are charged to the allowance account or the carrying amount of impaired financial assets is reduced directly if no impairment amount was previously recognised in the allowance account.

### De-recognition

Financial assets are derecognised where the contractual rights to receipt of cash flows expire or the asset is transferred to another party whereby the Council no longer has any significant continual involvement in the risks and benefits associated with the asset.

Financial liabilities are derecognised where the related obligations are discharged, cancelled or expired. The difference between the carrying amount of the financial liability extinguished or transferred to another party and the fair value of the consideration paid, including the transfer of noncash assets or liabilities assumed, is recognised in profit or loss.

#### INTANGIBLES

(i) Easements Local Governments are required to recognise easements in their Financial Statements where the asset can be identified and reliably measured. The City has easements over certain small portions of land but it is not possible to reliably measure these. Accordingly they are recognised at nil value

(ii) Software Costs incurred in developing software that will contribute to future period financial benefits through revenue generation or cost reduction are capitalised to software and systems. Costs capitalised include external direct costs of software development including consultancy, programming and data migration services. Amortisation is calculated on a straight line basis over 10 years. Technology development costs include only those costs directly attributable to the development phase and are only recognised following completion of technical feasibility and where the City has an intention and ability to use the asset.

### Other Long-Term Employee Benefits

Provision is made for employees' long service leave and annual leave entitlements not expected to be settled wholly within 12 months after the end of the annual reporting period in which the employees render the related service. Other long-term employee benefits are measured at the present value of the expected future payments to be made to employees. Expected future payments incorporate anticipated future wage and salary levels, durations or service and employee departures and are discounted at rates determined by reference to market yields at the end of the reporting period on government bonds that have maturity dates that approximate the terms of the obligations.

Any re-measurements for changes in assumptions of obligations for other long-term employee benefits are recognised in profit or loss in the periods in which the changes occur. The City's obligations for long-term employee benefits are presented as non- current provisions in its statement of financial position except where the City does not have the unconditional right to defer settlement beyond 12 months, which is then recognised as a current liability.

#### SIGNIFICANT ACCOUNTING POLICIES

#### Fair Value Measurement of Assets & Liabilities

When performing a revaluation, the Council uses a mix of both independent and management valuations using the following as a guide: Fair Value is the price that Council would receive to sell the asset or would have to pay to transfer a liability, in an orderly (i.e. unforced) transaction between independent, knowledgeable and willing market participants at the measurement date.

As fair value is a market-based measure, the closest equivalent observable market pricing information is used to determine fair value. Adjustments to market values may be made having regard to the characteristics of the specific asset. The fair values of assets that are not traded in an active market are determined using one or more valuation techniques. These valuation techniques maximise, to the extent possible, the use of observable market data.

To the extent possible, market information is extracted from either the principal market for the asset (i.e. the market with the greatest volume and level of activity for the asset) or, in the absence of such a market, the most advantageous market available to the entity at the end of the reporting period (i.e. the market that maximises the receipts from the sale of the asset after taking into account transaction costs and transport costs).

For non-financial assets, the fair value measurement also takes into account a market participant's ability to use the asset in it's highest and best use or to sell it to another market participant that would use the asset in its highest and best use.

#### Fair Value Hierarchy

AASB 13 requires the disclosure of fair value information by level of the fair value hierarchy, which categorises fair value measurement into one of three possible levels based on the lowest level that an input that is significant to the measurement can be categorised into as follows:

#### Level 1

Measurements based on quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at the measurement date.

## Level 2

Measurements based on inputs other than quoted prices included in Level 1 that are observable for the asset or liability either directly or indirectly.

#### Level 3

Measurements based on unobservable inputs for the asset or liability. The fair values of assets and liabilities that are not traded in an active market are determined using one or more valuation techniques. These valuation techniques maximise, to the extent the use of observable market data. If all significant inputs required to measure fair value are observable, the asset or liability is included in Level 2. If one or more significant inputs are not based on observable market data, the asset or liability is included in Level 3.

#### Valuation techniques

The Council selects a valuation technique that is appropriate the circumstances and for which sufficient data is available to measure fair value. The availability of sufficient and relevant data primarily depends on the specific characteristics of the asset or liability being measured. The valuation techniques selected by the Council are consistent with one or more of the following valuation approaches:

#### Market approach

Valuation techniques that use prices and other relevant information generated by market transactions for identical or similar assets or liabilities.

#### Income approach

Valuation techniques that convert estimated future cash flows or income and expenses into a single discounted present value.

#### Cost approach

Valuation techniques reflect the current replacement cost of an asset at current service capacity.

Each valuation technique requires inputs that reflect the assumptions that buyers and sellers would use when pricing the asset or liability, including assumptions about risks. When selecting a valuation technique, the Council gives priority to those techniques that maximise the use of observable inputs Inputs that are developed using market data (such as publicly available information on actual transactions) and reflect the assumptions that buyers and sellers would generally use when pricing the asset or liability and considered observable, whereas inputs for which market data is not available and therefore are inputs for which market data is not available and therefore assumptions are considered unobservable.

As detailed above, the mandatory measurement framework imposed by the Local Government (Financial Management) Regulations requires, as a minimum, all assets carried at a revalued amount to be revalued at least every 5 years.
